For the first time in history : Here is the Double Action Silencer + Muzzle Brake! By combining the effective workability of a silencer and muzzle brake . I have succeeded in making a one piece rifle silencer plus Muzzle Brake suppressor,for rifles and pistols. With this invention great many problems are solved,since until now gun shooters,varmint hunters and big game hunters, had the only option of having either silencer or muzzle brake, installed on their guns,so they had to choose either one. Now this problem is solved, with the Double Action Silencer Muzzle Brake. Here you can download Adobe Pdf. e-Book with blueprint drawings and instruction of how to make a gun silencer + muzzle brake, Double Action, and install on rifle or pistol. The instructions are clear and straightforward to understand and execute, so you can make this yourself with necessary tooling. Or get a qualified lathe smith /gunsmith to make it for you. The Muzzle Brake takes out up to 50 to 60 off the rifle and pistol recoil. The Silencer completely silences, with subsonic ammunition which is under 1087f/sec, or 331 m/sec. bullet velocity.
