"Roller Coaster Pricing Beat My Firesales by 2 to 1" ... Customers Buy, Just to Try For the Best Price!

Introducing Roller Coaster Pricing Script .. roller coaster pricing script The Idea Behind Roller Coaster Pricing and Why It Works! Hello and welcome to Roller Coaster Pricing Script , FBM marketing here to tell you about a terrific new product that has people begging to get their hands on it .. One of internet marketing's relative newcomers, Todd Gross, took his listmembers by surprise recently with the announcement and demonstration of a pricing scheme that is so devilishly clever that he had customers feeling like they had just hit the jackpot on a slot machine. He installed Roller Coaster Pricing Script on one of his sales pages and send a short email to his list. That's it! That's all it took to unleash a scramble to get a copy of this product that let's customers choose the price that they pay for your product I'll let Todd tell you about it himself: We always talk about the psychology of selling in Internet Marketing, but one thing that is often overlooked is how annoying and short-lived some of the sales schemes are. Firesales, or Dime Sales where the price goes up, sometimes rapidly, increases the desire to get in early by prospective buyers, but it can leave a bad taste in their mouth because they feel rushed or werent around when the price was low. Not only that, sales that run up in price in one direction, tend to become less popular with time, as the price gets out of reach. Enter Roller Coaster Pricing With some experience in day-trading the stock market a few years back, I know something about market psychology. One of the known times that the volume of trades can go way up, is when a perceived bottom is reached in a stock or indexs price. Why not apply that same psychology, and create a scenario where a products price goes up and down with every refresh of the potential buyers sales page? Surely, they will try hard to catch a bottom and it will increase sales! There are several advantages to this price structure. 1. The price always goes up and down so the sale does not get stale with time as in a firesale when the price gets too high. 2. Many buyers do not take the time to find the absolute lowest price, but are satisfied with something lower than the highest price they see. This means that a few sales will be made far above what would be considered the market average for the product. 3. Buyers become so mesmerized with the game of

finding the lower price that they will likely buy for the sake of securing the price, in addition to getting the product. 4. Buyers will not become weary or bitter about this pricing scheme as much as they would a firesale, which quickly runs away from them and does not allow them time to make a decision on their own terms. The Roller Coaster pricing structure makes the buyer feel empowered to change the price, unlike a firesale. With my first test using the Roller Coaster pricing scheme, we took in 239 sales in 36 hours, or around \$2,000 US dollars. The product was a set of videos showing how to set up a WordPress blog on your own server with SEO built in. The sales were mostly in the \$6 to \$8 range with sales ranging from \$6.00 even to \$12.23 with the range of the Roller Coaster being set from \$5.99 to \$13.99. While I did not split test this, similar sales in weeks prior did about 50 as well. I also received many unsolicited comments from my subscribers including: Konstanze-Marie I enjoyed this yo-yo sale very much, and even though I did not really want to buy, I did. - Konstanze-Marie Bonnie Hey Todd! Surfed on the price wave for SEO WordPress and I think I did pretty good, just \$7.95! Started at \$13.45 then just refreshed the page for the price cut. Thinking you could do something with surf crashing sounds and a wave graphic... just an idea! Very fun!!! - Bonnie Tamara Just wanted to tell you I really liked this randomizer price thing... it was fun and I got your product/videos for \$6.02!! Even though I know your products are great, I felt like I got an even better deal... Wonderful! - Tamara Todd Gross With these results and comments I would highly recommend setting up a dynamic pricing scheme like this one in your sales plan to boost conversions and become more popular with your subscribers. - Todd Gross Throw A Wet Blanket on Firesales and Catch the Latest Pricing Ride! roller coaster pricing script Roller Coaster Pricing Script comes with THESE GREAT ADDITIONAL FEATURES * Firesale - Still great for short-term interest building.
