Dear Frustrated Internet Business Owner, I have a confession to make. Ive been quietly making a nice living from home, working mostly online, for the past few months. Until recently, only my closest friends and family knew about what I do. Would you believe that I have never invested one cent into my online business? Yep, my home based business is 100 free for life. No matter how many other eBooks offer incredible wealth with an easy to use system, none of them can guarantee absolutely NO FINANCIAL INVESTMENT... EVER. Thats right. You can use this system for the rest of life with nothing but your internet browser and your email program and you will never pay a dime for it, guaranteed. You dont need a website. So, what has this got to do with you, you ask? A LOT. Here are a few things I would assume of you: (please tick any boxes that apply to you as you read) You are not making any or too little money online. You dont know why, but you are convinced that you are not doing something right, and the evidence is clearly displayed in your income statement. You are on a strict budget. You have probably blown your money into the wrong direction. Or you sacked your boss too soon. Whatever the reason is, you dont have much money to spare right now, and you dont have the appetite to discover youve made another financial mistake with the little money that you have. You have a good understanding of how to browse the internet and send an email. But you dont know how to turn these simple skills into income-producing assets. As the saying goes, you are one skill away from wealth! You are still new to making money online. You are probably a budding entrepreneur, with little or no resources, and are looking for a step-by-step manual that will guide you through the halls of guessing darkness.
