Normal retail value \$55. Our special super package price only \$19.97. ----- Affiliate Money Machine - Ewen Chia ----- My name is Ewen Chia and I want to thank you for downloading this special report. Heres why this report was written. Ive often received tremendous amount of emails asking for a proven quick way to make money online, and one of the best ways to start as a complete beginner is through Affiliate Marketing. Heres why: simply by promoting a unique affiliate link given by the merchant, you can start making cash online immediately without your own website and product, in fact its probably the fastest and easiest way to start. But being an affiliate is not enough, the true vital element for long-term success (online or offline) is by building an opt-in list of interested prospects you can keep in regular contact with. If youve heard the phrase, money is in your list, its only half true. The real money is in the relationship youve with your subscribers, no matter how big or small your list is. ----- Autopilot Profits - Ewen Chia ----- The Internets Fastest, Easiest And Laziest Plug-And-Play System For Making Immediate Money Online...Introducing... Ebook Money Machine - Ewen Chia ----- Think ebooks are dead? Not even close! Its still HUGE and Ill show you exactly how to... Rake In Real Cash 24/7 With Your Own Ebook Business In A Week From Now - Its Like Having Your Own Private Money Machine! It doesnt matter if youre brand new to the Internet, or dont want to work hard, or you cant write anything...you can make a killing fast with this simple, proven system...and build a successful business that lets you retire to your beach house! Dear Future Ebook Tycoon, Do you know why some people (even if theyre new to the Internet) make piles of money without lifting a finger, and leave their day jobs behind? Its because they have a secret. Its not a secret most people are willing to talk about, because it seems like it takes a little more work than the easy ways to make money online. But thats a myth! This secret tactic successful online business people use is downright easy once somebody shows you how to do it. Let me tell you something that Im probably uniquely positioned to claim... Promoting Other Peoples Products Can Make You Rich, But Its Only The Tip Of The Iceberg! One of the fastest, easiest ways to make money on the Internet is to promote other peoples products... And Ive actually got a bit of reputation as being one of the best at promoting other peoples products and share the profits. BIG profits. But Heres The Thing... Theres even more money out there that most product promoters never get to touch. Theyre settling for a LOT less than they could be making. Thats because they think promoting other peoples products is the only easy way to get started on the Internet. They couldnt be more wrong. Back to that secret I mentioned before... The People Who Make The MOST Money... All Have Their Own Products! Okay, so now you know. Want to make a killing online? Want to give yourself the calm peace of mind that comes from knowing youll bring in \$5,000 next month...or whatever number means success to you? Want to tell your boss to take a hike? Then you need your own product. Period. Think about this... Suppose youre promoting somebody elses product, but that person decides not to sell it anymore. What happens to your income? Thats right, it plunges off a cliff. You ultimately have zero control over your income when you dont own what youre selling. Having your own product gives you a money machine you control that gives you a solid, reliable income day in and day out, month in and month out. Best of all, that income stream comes from work you do once. Then you just sit back and collect the cash. Even better, having your own product means youre building a real

business that will let you turn your back on your job and retire to the life you really want to live. But heres the mistake most people make... The Only Way Making Your Own Product Is Hard Is If Nobody Shows You How! Most people who try to get started online hear everybody screaming about how affiliate marketing (promoting other peoples product for a profit) is the easiest place to start. Why? Because most people screaming that advice say... You dont need a website! You dont need your own product! Both things are true. But heres what they dont tell you... You can make good money without your own product or website, but if you have both, you can make money thatll make most rich people feel like theyre poor. So why dont more people do it? Because theyre scared of it. Most people assume getting your own product and website is hard to do, and theyre flat-out, no-joke dead wrong...if somebody shows you the easy way to get both done. Then youll have your own personal money machine that doesnt make you dependent on somebody elses product for your income. Yet, for some, this lifestyle seems out of reach. Does this describe you at all? If youve been banging your head against the wall trying to figure out the quickest and easiest methods to generate some cash for yourself online, then these five tactics should have you opening your eyes wide and wondering... Why didnt I think of this before? Cash Tactic #1: Affiliate Products Affiliate products offer the small, home-based business owner the opportunity to make truckloads of cash, while investing a minimum in over head. Low overhead is the primary benefit of affiliate marketing. You dont need your own merchant account. You dont need to pay a web designer and programmer to create a huge e-store for you. You dont handle customer complaints, refunds or returns. All you do is refer the prospect to the merchants site, and the merchant handles the rest. I believe the best affiliate products to promote are information products. Your commissions on information products tend to be higher simply because the author can price an information product higher than what the

average shopper spends on a tangible product sold online on a typical day. This is because the value of information is ambiguous at best, and subjective to how the prospect sees value. People are willing to spend much, much more in order to acquire a solution to their problems. There's a right way and a wrong way to promote affiliate products. The wrong way is by directing your prospect through your affiliate link straight to the merchant's site. This is a big no-no. It leaves you at the mercy of the merchant's sales copy, and allows valuable traffic to slip away since you aren't collecting prospect e-mail addresses to your own opt-in list. The right way to promote affiliate products exists in six steps.
