My name is Vas Blagodarskiy, and Im a Business major at the University of Maryland in College Park, MD. I enjoy my freelancing a lot, because Ive gotten successful with it, and today Im here to share my experience with you. Please keep reading if: \* You have experience in content creation \* You want to charge a higher hourly / per-100-words rate \* You feel overwhelmed with work assignments, OR \* You dont find enough work \* You want to become a more skilled writer In essence, Im here to teach you how you can make more money by working less. Feel free to remain skeptic, but here is my personal challenge to you: YOU CAN MAKE \$876.59 WITH MY BRAND NEW METHOD - IN JUST 14 DAYS OR LESS - BECAUSE IF I COULD DO IT FROM MY DORM, SO COULD YOU! I think the best thing to do here would be to paint the picture for you, so you can see why Article Brokering is as powerful of a tool as I claim it is. I realize that you may not be a college student like I am, but first I want to show you why having a flexible Article Brokering schedule is so nice. Let me start off by telling you what my weekday schedule looks like, so we can see if its something you would be OK with, as well. I wake up at 8am, I work from 8:30am until 10:30am, then I go to class at 11am. I get back to my dorm at 3pm (I live at Centreville, if anyone knows College Park, come by and say hello!), and work until 5pm. I usually go grab dinner around 5:30pm, do some homework, then hit the gym from 7-8pm, at which point Im see for the rest of the day. Wouldnt that be a nice work schedule to have? Article Brokering is a system that allows you to pick your own hours, and do other things at the same time. This means a lot to me, because I can make good money (as I will show you later) and I still have an active social life. Going out almost every night is great, too! At Last A Solid Blueprint To Starting, Running And Profiting From Your Own Freelance Content Creation Business! LETS CUT TO THE POINT: Ive done this since High School. I got started on learning about business about 5 years ago. I know what works, and I know what doesnt. I know how great it is to have steady work, and today I will prove to you that its within your reach. Why? I know the frustration of having 18 deadlines at a time. I know what its like when you are unable to deliver what your clients want because

there isnt enough time in the world. My guide is here to save you time and make you more income. Read on ... With Article Brokering, you will score more better-paying assignments and garnish a richer clientele at the same time. It is my proprietary approach to more efficient, more profitable content creation that Ive finally decided to make public. This concept has been under wraps for 4 years: its unique, and you will not find it anywhere else, guaranteed! What exactly does it do? It allows all content writers of any age and any language, anywhere in the world, do more writing projects in the same time that it would take them to do just one. I will walk you through your list of more actionable prospects, while adhering to every client specification. In a nutshell ... My job today is to get you re-hired for further projects down the road, time and time again. With Article Brokering, you wont worry about up-front fees or unexpected expenses. Youll be able to make extra income on-demand. Heres an actual example. ACCIDENTS HAPPEN ... Before, \$1.00 / 100 words was enough for me. Suddenly, I had an \$800 car repair bill on my hands, with no money to pay it. At that rate, thats 80,000 words! Before, it would take me over a week to do this by just writing articles! Plus, tuition bills were just around the corner, as well. I instantly became overwhelmed with stress. I was extremely frustrated with my inability to find upscale clients who have the budget that I wanted to work with. Certainly, you know how that feels. The problem is, 97 of article writers simply underestimate themselves. Content writers around the world are unsuspectingly losing out on higher-paying projects. Fortunately, I found a solution that you should really know about, which Id love to share with you. With Article Brokering, at least \$3.00 / 100 words is within anyones reach. Now I could pay that \$800 car repair bill in just a few days! As a trained Article Broker, youll be able to handle 5, 10, 15, 25 assignments at a time ... and not ever feel like youre overloaded with work. Sounds unbelievable, I know, but let me ask you this: would you rather work more and make less, or work less and make more? Skeptics will say that the second one is impossible, but Im here to prove to you that its not only possible, but a lot easier than you think. STILL UNSURE? Dont worry: thanks to Article Brokering, now you dont have to make all the costly, time-consuming mistakes I once made. Thats because Ive devised a formula for success and its been time-tested since its conception in 2006. Its easy. Its fun. And its risk free. Those three components are the fundamental blocks that make up the Article Brokering approach. Let me tell you about just some of the highlights: # Discover how I reached my profit margin of over 300! # You dont need a website to get started! # Follow my steps as I make an average of \$90.00 per project! # I flip dozens of articles a week, in bulk quantities, for bulk profits! # You will never invest a dime, so you CANT

lose even a penny! # Continuously strengthen your brand! # Build a bigger list of clients! # Expand your array of services as you go! # NO bogus software to download! # NO risky PPC, CPA or any other transactions! # NO plagiarized, rehashed PLR content! Unlike other phony programs that will have you sign up through numerous affiliate links of greedy Internet Marketing gurus, theres \$0 investments required after you get my guide. It only takes a few hours a day, and it will significantly boost your profits which is what doing freelance work is all about. Lets face it: spending an hour to write a few articles at \$1.00 per 100 words the way most writers do it isnt worthwhile. You quickly become exhausted, find yourself out of ideas, and eventually give up on a project! If youve ever researched a stable business any sort of business youll soon discover their secret formula for success: PREMIUM SERVICE + PREMIUM STAFF = PREMIUM PROFITS. I guess its not so secret now that Ive put it out there, right? Im joking Im sure youve known this secret all along. Heres what a lot of web-developers miss: this same formula applies to services like article writing, content spinning, copywriting, and much more. However, the problem with content creation becomes evident within minutes of starting on a new article: delivering good content takes a lot of time. Not only do you need to know grammar, punctuation, and figurative language, but you also need to spend hours browsing sites to get information about a specific topic! Suddenly, clients start complaining, you become angry, and on and on until the inevitable failure occurs. Its easy to take on 5 projects, but its not easy to finish them all on time! I figured, I must not be the only one who feels this way. If you can relate to what Im talking about - youre not alone! It took me a lot of trial and error, but I was finally able to perfect Article Brokering in a simple, straight-to-the-point format, and I want you to have it today. It sure makes paying bills a heck of a lot simpler and todays a perfect day for you to see what I have to share. I want to let you in on a secret. The key to running a profitable business where you make big bucks and spend minimal time doing things is called OUTSOURCING. But wait a minute, you say, I thought people hire writers to outsource how can an outsourcer do outsourcing? It sounds confusing and quite impossible but if youre willing to understand the basics of this concept as I describe it in my guide, you will immediately realize that youre holding a unique opportunity to make as much money as you want. Do you want to be in control of writing your own paycheck, on-demand, at the push of a few buttons? Of course you do!
