What is .diz? .diz files are just regular text files, you can open in your favorite text editor. The extension .diz is used to enable you to put the whole product directly in a blog tool. This way you do not need to worry, that these lists/descriptions (a.k.a. not-elderly Care-content) get published on your site. The blogging tool should only process .txt-files. Hence .txt is used only for publishable elderly Care content, but not for internal information. It is just used to make your life easier. Get 25 elderly Care PLR articles, #1 now!
