IMPORTANT: This guide is written for those that already have the basics skills of setting up a simple website. It is written for those that have the basic knowledge to register a domain name and upload a website to the internet. However, if you do not know anything about setting up your own website or even registering a domain name dont worry! This guide will still help you a great deal, and teach you the basics of setting up you very own highly profitable affiliate business. So lets get started! So, whats your ideal Plan for affiliate success? Well, to tell you the absolute truth there is no single answer for this question simply because everyone is different... Your tastes, skills, interests, and overall goals will affect how you decide to organize your network of sites. The important lesson to take away from this course is how to grow a network of web sites, how to make them viral, and how to promote them for search engine rankings. This guide is not about telling you how to use your time, efforts and money. You can work at your own pace, and take it one step at a time...and as long as you actually start getting work done you will be able to see results!
