How Would You Like NOT To Have To EVER Go Back To Your Present Job Again... BY CHOICE!! Why? Because you will now have the power and the means to decide to quit your job when you are ready... and tell your boss 'bye-bye' without looking back and have absolutely no regrets! Your Name Here Dear Hard-Working Friend, Total financial freedom is every man and woman's desire... and it was mine, too. I'm just a regular person with big dreams, hopes and goals - probably very much like you. Wouldn't you love being able to wake up whenever you want, instead of hearing your alarm and returning to the 'daily grind' like you have for so long?... Very soon, you could be free to choose how you spend your time. Sounds fantastic, huh? Yes, I have long forgotten the alarm clock and forgotten about commuting to that job I despised for 14 l-o-n-g years, because I now own my own business - and you can do the same, exact thing in less time than you think it's possible! And I get up when I feel like it, I watch the news and sip a hot cup of Columbian coffee, and then I take a shower... some days I work for only a few hours, and then I goof-off if I want to. Most days I take my dogs for a walk, and often I go for a few rounds of golf with my buddies. It definitely wasn't always like this... There was a time when I had a full-time job, worked my fingers to the bone and then came home late with no energy to spend time with my beautiful family... and no time to do the things I really, truly enjoy doing, either. It was horrible. And I know that most people live like this year after year, because I did too... and I'm guessing that's why you're here right now, because you are doing it, too. Finally, though, I unlocked the secrets that enabled me to turn it ALL around. Today I am my own boss... leading a life that's financially secure and enjoying it more than anyone could possibly know. How did I do it? I took the time to research and carefully plan my first online business. Look, there are a lot of programs 'out there' today... like those "BS instant money systems" and other hypey stuff like that. And, it's incredibly easy to get in way over your head and fall victim to information overload. That's exactly what I did when I started looking into writing this ebook. But I took the time to research hundreds of programs, systems, and methods... and tried a bunch of different options until I finally discovered the magic combination of what worked best for starting a home business without going crazy in the process. I will show you how to short-cut the learning curve and do the same exact thing:

saving you endless hours of research, saving you the thousands of dollars you could spend trying every new program that hits the web and sounds good - but isn't always. I am ready to reveal the secrets to my success so you can achieve what I've done all on your own... In my new ebook I will break down exactly how to gain financial freedom by starting your very own home-based business and I'm so pleased to present this work to you... "Hot New Business: How To Plan And Build Your New Business". Inside, you'll explore exciting home-based jobs & learn precisely how to make a good living working from your own home: The exact steps to starting up your own business, in plain English Planning your business and getting financing as needed for your niche Working out the legal aspects of your home business How to get your new business up and running with no big investments Here is the best part: you can pick a method that suits your skills and your available time, because I cover the topics in detail, including: Make money doing big company Surveys Profit from Affiliate Marketing Learn how to earn as a Virtual Assistant (VA) Exercise your talents and skills as an Elance provider Earning from Ebay and Amazon Setting up your own ebook business with Lulu Successfully running a home-based call center Home Based Internet Marketing Tactics And lots more valuable info you'll need to get going faster! At this point, you can see that this product contains a TON of valuable information - and it's not at all difficult to understand and begin implementing. Just do one thing at a time, then move to the next logical step, so you avoid the 'overwhelm' of information that most first-timers feel when their desire is so strong but they don't know where to begin. Rome wasn't built in a day. :-) At this point, are you WORRIED that you might have to experience some of the following events: (You Won't!) Sell products you don't believe in to strangers? Coax your friends and family to join some Multi-Level Marketing (MLM) scheme? Attend boring (or expensive) seminars ? Borrow or invest a large sum of money to get started? Visit lawyers and pay hefty start-up fees? Hire some computer genius to teach you how to operate an E-Business? Or some other similar not-fun actions? Forget all of that nonsense. You won't have to endure those unpleasanties at all! My ebook is just a step-by-step breakdown on how to start up a small business in the quickest, easiest way possible... and how to turn it into a thriving and successful home-based powerhouse. Well, like all marketers, I had to argue back & forth with myself with logic & karma and everything to come up with a fair price for this ebook. It's jam-packed with information, it's up to date, it's going to help you succeed... so I first thought about setting the "usual standard \$97 for ebooks" and then figured, hey, when someone's just getting started, that's a bit steep for the vast majority... And so then I slashed it to \$47 -

but the more I thought about it, I realized that's *still* a bit much for a lot of people, so I sliced it by another \$20 off and added a nifty bonus to the package to sweeten it even more. Here's that *very* cool bonus for you that I mentioned above... Yes, I have a very special offer for you: How would you like to also have the resell rights to the "Hot New Business: How To Plan And Build Your New Business" ebook, as well?
