"Part Time Work for a Full Time Income" Work From Home plr The Evolution of Work. Throughout the ages men and women have searched for ways to ease the burden of work in their lives. From building homes and skyscrapers, to doing laundry by hand, there has been a steady improvement in the working conditions and the working methods used by humanity. People used to spend their entire days hunting, foraging, planting, preparing and working from dusk till dawn simply in order to have food and a roof over their heads. It may seem as though you do the same thing today, but you'd be wrong. No longer must we hunt down our own food, dress it and preserve it through long winter months in order to stay alive. With the touch of a button our laundry is washed and dried and even made to smell terrific. We're working with our brains instead of our brawn, for the most part, and it's improved our lives.
