How to correct everything youve been doing wrong How to communicate on a deeper, woman friendly level How women perceive men - an invaluable dating and life lesson How to win her back and never lose her again My life as a relationship expert did not start from reading books or counseling others. No, my current profession came from my own sad experience. My girlfriend and I were together for many years. I based the success of our relationship on longevity. I didnt lie or cheat. We rarely, if ever, argued. I truly believed we were destined for the altar. And then everything changed. She sat me down one evening and said she didnt think she was in love with me anymore. I was floored. She said there wasnt another man but she also said we werent working. We needed time apart. I begged and pleaded for her to stay. I swore I would be better, try harder. But honestly I didnt know what else I could do. After months of non stop calling and emailing, I had given hope. Then a friend told me about what would become my Get Your Girlfriend Back method. Within days, my ex and I were finding our way back. It worked for me. And its worked for many others, too. Be among the thousands of men who have tapped into their softer, gentler emotional side.
