Introducing Article Marketing Exposed... Of all the ways to make money online, in my opinion, article marketing is the easiest and best way for anybody to make their first dollar. The best part is, that without spending anymore than the cost of a domain name, you can create a passive income that can bring you money from an article that you wrote years ago. So ask yourself, is spending a few minutes writing a 250 word article worth the time if it brings you money still years later? Yea, I thought yes would be the answer. I'm sure you've heard a ton of different opinions on how you should do article marketing and how you should provide the best information possible, write informative articles and give your reader value and blah blah blah. Well what you're about to read is probably going to go against a lot of what you have read, and the article guru's are not going to like it.....but doing it this way has made me A LOT of money so I don't care if they agree with me or not! I'm going to do it the way it makes money and a way that continues to bring me money day in and day out. If you are willing to put in the time to follow this method, you WILL make money and a good amount of it. What you need to remember is that there is no super highway to making money on the Internet. You MUST stay consistent and motivated even when you get frustrated and feel like things are not going your way. It is those who continue to work and promote their business that will in the end be successful. So, no more pep talks. Lets get right into it. 37 Pages
