You can also read about 50+ testimonials online. Why Would I Practically Give Away This Valuable Resource For Just \$17.00... ...and WITH master resale rights????!!! Well, realize that this collection of battle-tested webmaster techniques could easily sell for 100s of dollars. In fact if you asked a top technical writer to produce an easy-to-understand webmaster series - you'd be charged in the neighborhood of \$100.00 to \$500.00 So at bare bones minimum you're getting hundreds and hundreds of dollars worth of powerful

lessons for webmasters at your disposal. But I'm not going to charge you anywhere near that amount. In fact, your total investment for this jam-packed ebook is just \$17.00. (Yes: seventeen US dollars... that's not a misprint!) The truth is, when I was first starting out on the Internet I would have done just about anything to get my hands on something like this. I really put together this ebook because I wanted a guide just like this when I was first trying to put together my first web sites. It could have saved me hours and hours of research and from making countless mistakes. Today, I want to help as many people as I can with this product. That's why I'd rather price it where nearly anyone can afford to take advantage of this incredible resource. I look at it as my way of giving back. Honestly, you can easily make back your investment just by following these successful webmaster techniques and the tips included to the ebook. But there are 2 BIG bonuses I'm going to include if you act right away that is sure to pay you back in spades! This is the first time all those articles of the series "My Early Days on The Net" are presented in an ebook format and thus making it the BEST TUTORIAL for BEGINNERS to all the Subjects it deals with. Actually, if there was an Internet Marketing course in a University, then THIS ebook would be listed under the ESSENTIAL READING books for all first year's students... Mega Bonus: Master Resale Rights - You Keep 100 of The Money! And you can also pass the resale rights to your readers! Yes, you read that correctly. You keep 100 of the money! Sell just 1 copy and you got your money back!! I want you to succeed on the Internet and one of the easiest and profitable ways is to sell information products just like this ebook. That's why I'm letting you market and sell the My Early Days on The Net ebook! It's better than any affiliate program that pays you a measly 25, 35, or even the generous ones that give you 75. With your investment in this ebook you'll get complete distribution and resale rights so you'll keep all the money! That means you can sell My Early Days on The Net or give it away. Use it as a bonus, bundle it with any other offers, add it to your membership site. Or whatever you want to do, it's your choice. Not only are you getting a ton of incredible lessons to model, study and learn from - but also get the opportunity to make money from it right away. Again: the first copy of My Early Days on The Net you sell - you'll make back your money! Now, please don't get me wrong. I'm not going to feed you some B.S. that you'll be selling hundreds of these in a day. I don't think that's realistic. But, I do think you could be able to easily sell a couple every month with very little effort. And it keeps getting better. Not only am I giving you the complete master resale and redistribution rights to My Early Days on The Net but I'm also giving you the same webpage you're reading right now with all the professional graphics included! You'll get

everything you need to set up and sell this resource from your Web site: This sales letter to post on your web site. Professional web design template. Professional images (2 sets) All you have to do is 'plug-in' what you're given and you could be taking orders and profiting from this very same ebook in just a few days. Turbo Mega Bonus: 17 (yes, that's: SEVENTEEN) cool software applications with FULL Master Resale Rights! - You Keep 100 of The Money! And you can also pass the resale rights to your readers!

#1 Turbo Exe Locker A handy tool that lets you 'lock' exe files (including setup files) so they can't be opened. Very safe to use just open the file, and click the option and hit 'Do It'. Last 5 actions are shown in a easy to follow list at the bottom. Simple yet very efficient. #2 Turbo Auto Multi-Browser Do you surf a lot of the start page's? (Surf pages, get credits then others surf your site) This program will surf 5 pages at once, it will block pop-up windows, reset the start page between 0-60 minutes incase a javascript changes it. Minimizes to the system tray to be out of your way. #3 Turbo Auto-Surfer Add as many start pages as you want. Limit how many times that start page is opened. Opens them randomly so hard to trace. Save and load lists of auto hits pages. Many more great features! #4 Turbo Bookmark Checker It helps you go through your bookmarks to see if they are still valid then removes any that you select to be deleted. It scans the bookmarks, list them then checks each link to see if the page is still available! #5 Turbo Bookmarker Add your favorite sites to this program and easily visit them from it. You can even generate an html page with all your favorite site links in it! #6 Turbo Contact Form Creator A great tool that sets up a php file for creating quick and easy contact forms with maximum function. Can either have 1 email address or give them a choice - contact forms like this are a great way of avoiding spam - your email address isn't put into the html. Prefix the email subject for easy sorting. #7 Turbo Customers Pad This is a program that you can store your client into, it's for small client database of 0-200, although there is no real limit . It has features like adding, editing and removing contacts. You are able to search though all contacts to look for items (ie search all contacts for the word branded - it then lists all clients that have that word), can do mass emails and more. #8 Turbo Email List Cleaner This program helps you take care of your email list. It is where you can take care of your email lists, import lists, check the emails syntax (does it have a @ ect) check emails and also check emails that you have 'black listed'. Black lists can be also imported and exported. #9 Turbo Google Ranking Finder Great tool to see where you are ranking on pages with Google. Put up to 4 keyword terms in and a list of domains. Also good to see where your competition is ranking for the same terms! Very easy to use. Does store domains, so you can pick from

the drop down box. #10 Turbo JS Code Generator The best javascript tool! It includes 15 different javascripts and makes it easy to use them. You input what you want, then preview or generate code. Save the file as html or just copy and paste the code into your existing website page. Not only does this have the code, but tells you what browser it will work in. #11 Turbo Keyword Counter Searches you web page and lists all the words, this gives you a very good idea of the words you should be using in your meta tags. Can set the program to exclude common words like is, the, then, at, etc. #12 Turbo Note Organizer An advanced program for storing notes, you can create as many sections as you want, sections on html snippets, peoples contact details the possibilities are endless. Very easy to use and navigate - this is the best way to store notes. Add and remove folders and notes easily! #13 Turbo Notepad Deluxe Notepad Deluxe can compress text documents when you save them and uncompress them when you open them. Also, once you have saved a file and then open it with any text editor it's 'encrypted!' #14 Turbo Screen Capture Turbo Screen Capture easily captures screenshots from your computer. Captures the last active screen, full screen or user selected area. Also numbers each .jpeg picture consecutively. #15 Turbo To Do List Add tasks and remove tasks, tasks can contain notes, set a date when it's due along with priority, sits in the system tray out of the way, print all the tasks out, auto saves and loads the list when you open close program, add an unlimited amount of tasks and edit any task that has been setup. #16 Turbo Top Keywords Searches Google for the top 20 sites and puts them in a list, can then select the site and it will grab the sites meta tags. This means you can see what other sites are using for meta tags that are high in the Search Engines. #17 Turbo Traffic Wizard Turbo Traffic Wizard is packed with 10 scripts which are easy to use to increase website traffic. These scripts include Break Frames, Bookmark Us, Email This Page, Set Homepage, Logo Branding, Frameless Popup, Browser Entry, Language (which routes traffic based on browser language settings), Avenue Search, and Popup Page. Part II Frank Sinatra, Internet Marketing and me..." in Sharon Lambkin's e4u Newsletter Volume 5 - Issue #18 - July 2, 2003. I was so impressed with your down to earth style and your helpfulness to demystify HTML that I subscribed to your Newsletter promptly. Thank you for your assistance. I look forward to my first issue and plan to publish your article in Cybershopnews, my ezine. Linda Landry, your pubbie Cybershopnews affordablebelowcostads . Hello John, Thank you very much for your Meta Tags Lesson, it cleared up a few things for me. Especially the 3xR (Revisit, Robot and Rating).. I have been looking for good content for a "How to create excellent website-department" at my ecourse-cafe.com, you gave me an idea and I'll to start with posting your article at my website. Yours in success, Susanne F . Dear John, I really appreciate your HTML lesson. You sure know how to make it easy for us beginners. Thanks a million! Sincerely, Billie Watkins . Thank you a million times over! This article (about Meta tags) was just what I needed, just when I needed it. We are having some problems with "meta-tags" and "keywords" Thanks to your insightful this chore, of coming up with meaningful "meta-tags" and "keywords" has become a pleasure. God Bless You, David Davis eternal-ink.com . Hi John, I just wanted to say that I read your article on meta tags today and it really helped me improve my own website and the websites I create for others. Thanks man! Fellow Warrior, Stone Evans, The Home Biz Guy Home-Business PlugInProfitSite . Hi John! I have just joined your mailing list for your newsletter. Reason I subscribed to your newsletter, after having just removed many others that I had initially subscribed to when I trawled the internet for useful information to get me started in my home-based business? Simple! Content. I read your article on HTML posted on the Warrior Forum and couldn't believe it! Here was someone who knew what they were

talking about and it was in language that I could understand. As a newbie to all this and a technophobe to boot, this was so good to me. I thought I would forever be wandering around lost in cyberspace. Not anymore! Must go as I want to download your article on MetaTags. Thanks again, for making this newbie happy. Pat affiliatebusiness4u . Hi, John. I just came across the HTML posting - all I have to say is "THANK YOU!" for making things so clear. I am now printing off your issue on Meta Tags as I will be submitting my website to the search engines shortly. Thanks, again and good luck with your business (even though you don't believe in luck) Marty Wilkinson recipetown sitesuccess4u findyournichehere . John, Outstanding article on Server Side Includes. Your tech knowledge was on full display in this piece. It gave me greater insight into SSI's. Great information. Keep up the good work. George Stark CEO webABCs.com . Fantastic lessons! Now, I FINALLY have a better understanding of what all the gobbledy-goop means & stands for & how it all works (together). You explain things so well; in such Understandable terms that Even this Internet Dummy can "get it". Your "Examples" are perfect. I just Had to let you Know how much I appreciate your lessons. Thanks, Shirley Bodoh ... The Internet Dummy
