Wrapping It All Up	
.....	15
The Christmas shopping season is in full swing and	
there are really only two ways to get those presents youre searching for: 1) Wading through the crowds in	
all of the retail stores, 2) Shopping on the Internet. There are plenty of books on how to deal with scams	
in the retail stores, and, truthfully, most of these scams are pretty straightforward and easily detected by	
consumers. The Internet has taken its place beside the telephone and television as an important part of	
peoples lives. Consumers use the Internet to shop, bank and invest online. Most consumers use credit or	

debit cards to pay for online purchases, but other payment methods, like e-wallets, are becoming more common. However, this also provides a perfect opportunity for the scam artists. This eBook will show you how to avoid the most common scams and stay safe online this holiday season. Tags: mrr
