"Internet Copycatting - 9 Different Internet Business Models For You To Copy And Profit From" Just What Is This Book About? Here's what you'll be getting: 9 'practical' Internet business models that you can copy from. These are not just business models, but PRACTICAL models that you can actually profit from. It's like a buffet, you choose what you like. In other words, take your pick. For each Internet business model, there's an analysis of the pros and cons. You'll know beforehand what to expect, rather than jumping into a particular business and regretting it later. Know the basic setup of each Internet business model, which model requires a website, which doesn't; whether you'll need a product or not, etc. Get the scoop on the basic requirements of each business model, and prepare yourself for it. There are interviews with successful business owners operating the various Internet business models. You will learn first hand how they are making money using their respective business model. They will reveal to you the secrets of their success, pros and cons of their business, their challenges, etc. Most important of all, listen to their advice for people venturing into such Internet business model. List of basic resources to get you started. Not just a list, but recommended list that I personally use or have good referrals from friends.
