Big Profits From Small Priced Products Master Resale Rights Included ARE YOU READY TO OFFER YOUR CUSTOMERS THE LOWEST PRICE POSSIBLE AND STILL MAKE TENS OF THOUSANDS OF DOLLARS IN INCOME A YEAR? Are You Willing to Change the Way You Do Business to Survive the Recession? In "Big Profits From Small Priced Products" I discuss - What types of challenges you can expect to face as an online entrepreneur in the next few years as the result of the recession The types of approaches to online marketing that may have worked a year ago but are not working any more as a result of the economic downturn The marketing and promotional tactics that you may still be using that may become completely ineffectual or obsolete within the next few years How to begin to modify your thinking so that you can turn negatives into positives How to adapt and develop your business to match the requirements of the new era Why a similar product launched a year ago would not generate the same kind of income today thanks to changes in attitude about what people can afford Where to find new products to sell that are low ticket items and that people will want to buy How to come up with ideas for special or short reports that are more affordable for your customers to buy than the usual hundred dollar report that is usually sold online! The number one mistake you can make to turn your customers off of buying from your website for good.
