

# The Offline Cash Method

[DOWNLOAD HERE](#)

Your blueprint to Offline success. This is the roadmap you will use to get your business setup and all the way to profit mode. The simple process goes like this! 1.Setup Your Business 2.Market you services 3.Accept payments 4.Get the work done 5.Get paid! Below you will find a more elaborate explanation Part 1: Business Setup This where I will take you through setting up your business to accept payments, whether or not you need a website and the pro and cons of each. Looking professional is key to closing more clients and Im going to show you how. Part 2: What Services to Sell This is pretty straightforward but there are many approaches you can use. I will go over a few business models that work really well in this market. Your business can be as simple or as complex as you like, but obviously we want our business to be as simple as possible. Part 3: Easy Marketing Tactics This is where most offline courses and eBooks drop the ball, they will show you what services to provide and how to perform the services but marketing your services is a different story. I believe marketing is the single most important thing in any business venture. The more eyeballs you have on your product or service, the better. Part 4: Getting the Work Done You can always do the work yourself, but there are plenty of places where you can find full time employees to work for you for less than \$3/hr and still have quality work. Remember, business is all about leverage, the more you leverage your time, the better! Part 5: Business Management Software Life is easy when you have system, so I developed a system in my business where I simply login and check on operations. So I could be on vacation and my business is still running smoothly. Make sure that you dont skip this chapter because once you start marketing your services you will be getting more business than you can handle.
