A guide on how to pick up women, how to attract women, how to approach women Gets HOT Women Into Your Bed Without Acting Fake, Without Following A Complicated System, And Without Being A Weirdo. No phoney routines. No stress. No feeling rejected. Its Being Called The Holy Grail Of Seduction For A Reason! Dear friend, Finally, you CAN attract sexy, fun-loving, interesting women -- total 10s -- WITHOUT any of the difficulties of traditional dating or pick-up game. How I stumbled upon this rogue seduction system is very interesting ... Just a few years ago, I was a LOSER when it came to women. I wasnt the 40 year old virgin, but my success with women was well below average. Around my friends, I was fine. I was relaxed and sociable. Hell, I was just FUN to be around. But whenever I was near an attractive woman, I became NERVOUS and AWKWARD. I would FREEZE UP, forget what I should say, or else I would talk too fast and make a fool of myself. It got so bad -- the nervousness, the pain of rejection, the lack of control I felt -- that I decided to NEVER approach an attractive woman. Im guessing you can relate to this ... (all men have felt this way at some point in their lives.) I Was Lonely. I Was Sexually Frustrated. And Deep Down Inside, I Hated Myself. Are you totally happy with the women in your life? Are you surrounded by beautiful, interesting women who love YOU for who YOU are? If the honest answer is No, I feel your pain ... Feelings of inadequacy ... of being totally uncomfortable around the very women you are MOST attracted to .. are the WORST feelings a man can feel. The worst part is, when youre lonely, and you dont understand why, you begin to blame yourself. Its time to STOP BLAMING YOURSELF and take the next step. Ive felt just like youve felt ... and I decided to NEVER feel that way again. Yes, I REFUSED to be alone for the rest of my life. I decided to do something ... I Tried Pick Up Game -- And It Worked. (Sort Of...) I REALIZED that the way I was acting around women wasnt working so I adopted a completely different persona. I put on weird clothes to attract attention, like platform shoes and big sunglasses. When I approached a woman, I used canned lines and routines I picked up from books and DVDs. I even changed my name! Everything I said or did was in a calculated manner in order to get a woman attracted to me. And let me tell you, it WASNT WORTH IT. Sure, I was hooking up with a few more women. But it was a CHORE talking to them. I had to constantly run game. I had to

always remember what I had to say, how I had to act, and what I had to do. I realized, after attending a \$3,000 boot camp, the seduction industry only wants your money. They are NOT concerned about your success with women, or your happiness. And although I had a few fun Friday nights, deep down inside I was as lonely as ever. Until ... Finally, My Heart Racing, I Discovered The Obvious Secret To Attracting Beautiful Women And DAMN, Did It Work! Ask any woman how to be successful with women, and she'll tell you... Be yourself. Is this a lie? I used to think so ... But what if being yourself means something completely different than what you thought it means? * Be yourself means -- don't be that nervous fool desperate to compliment a girl he doesn't even know. * Be yourself means -- don't adopt some phoney player persona the million-dollar seduction industry wants to sell you. * Be yourself means --- be the way you are around your best friends, (with SOME important differences) and you'll attract the type of women you'll like best. This magic concept works if you're handsome, rich, and confident with women ... or if you're the 40-year-old virgin living alone in your parents' basement, with ZERO confidence and a history of bad relationships.
