

Email Marketing Blueprint - Secret Data & Tactics W Mrr

[DOWNLOAD HERE](#)

9.2 million emails later... Secret Data & Little Known Tactics Reveal How To Skyrocket Your Email Open And Clickthrough Rates In Just Minutes! Dear Email Marketer, Technology changes. And every time that happens, it is sure to change the way people do business. Email marketing is no exception here. Plus the sheer amount of spams, ads, and other email marketers competing for your subscriber's attention... .. it kinda makes you wonder if email marketing is dying right? While email marketing is not having the effectiveness it used to have, truth be told it's still far from dying because email is an essential Internet tool. It merely means you have to change your approach towards your subscribers if you want to get at least 20 to 28 of them to at least open your emails! What You Need To Know Before Sending Your Next Email... So you've built a mailing list. Whether you have 100 subscribers... 1000 subscribers... 10,000 subscribers... heck, even 100,000 subscribers... If you don't know how to get your subscribers to open your email, you will generate dismal results and income from your email marketing campaigns no matter how big or small your mailing list is! Here's what you need to understand, especially if you operate in a highly competitive niche: since it is normal for Internet users to subscribe to multiple mailing lists, it's also normal for your subscriber to wake up the next morning and find his Inbox full of emails from the mailing lists he's subscribed to. True or true? With so many emails - including yours - screaming out for your subscriber's attention, he would go into the "judge, jury and executor mode". So what happens next? Emails get deleted... even before they are opened and read! As long as your email headline doesn't grab your subscriber's attention, there's a 95 chance that your email will get deleted, too... even before your subscriber would open it! And when this happens: Your open rate goes down, Your click through goes down, Your sales go down too! Sucks right? New Approach. New Tactics. As an experienced email marketer who have been using emails to reach my subscribers for years, I spotted a huge difference in the trend. What used to work in 2006 no longer works today. Then there were some not so obvious details I uncovered not too long ago myself yet influential to the email open and click through rates! Based on testing and observing 9.2 million emails sent in the past 12 months, I had arrived at a conclusion that mass human behavior is predictable to a degree. Which means there are some things you

can count on indefinitely... Which also means there are approaches that produce predictable responses from email marketing! Email Marketing Blueprint [Click Here To Download Email Marketing Blueprint Now!](#)
