Thats right and even if you know nothing about Bum Marketing or Internet marketing, you can still make more money with this technique than many of the so-called guru's of marketing make online. This is why I am such a fan of Bum Marketing and why I have gotten my family and friends into Bum Marketing, too. So What Is Bum Marketing? Bum Marketing is also called article marketing and here is how it works in three easy steps: You write an article on a topic that has a lot of potential in a niche market. What you want is that article listed in Google or with other popular search engines. You wait for a buyer to read your article, and then click on your embedded affiliate link. When the buyer clicks on your link and buys, you make money! Its that simple! And best of all, you dont have to be a great writer to write profitable articles. In fact, follow my simple tips and advice and youll be able to write money-generating articles in no time even if you hate to write and flunked high school English! Im going to let you in on a little secret here. The truth is being a great writer is actually a hindrance when it comes to making money with Bum Marketing. Heres why: People are looking for information written on their level. They dont want to have to try to figure out big words or read something two or three times to understand it. They want to read articles that are written at a basic, easy-to-understand level. They want to read articles that are written the way they talk. You can write the way you talk cant you? Sure you can! And Thats Why Bum Marketing Could Be So Profitable for You! But to make money with Bum Marketing, you cant just hope to jump on the bandwagon and make money on instinct. It just won't work. You need guidance from somebody who has been there and succeeded. You need to hear from somebody who knows the ropes and can teach you how to start earning money faster
