Do you enjoy talking on the phone? Does your voice have a friendly, cheerful tone? Are you well organized? Do you need a few hundred extra dollars each week? If you answered "yes" to each of the four questions listed above, then you are a great candidate to pursue one of the most lucrative and easiest homebased businesses that exists today! Its very inexpensive to set up and, depending on your individual ambition, youll earn thousands of dollars each year without having to leave the comfort of your home. Ironically, its the advancement in technology thats creating this exciting opportunity. Fancy, complex phoneanswering systems have left customers talking to computer generated voices, leaving messages on "voice mail" and pressing numerous telephone numbers to work their way through to conversing with an actual human being. While these systems "free" people up from the phones in a business, they frequently frustrate clients and potential customers to the financial detriment of the firm. Unable to easily reach a human voice, many individuals simply go elsewhere for the services they need. Fortunately for everyone, employers are recognizing this problem and solving it by contracting people like yourself to answer the phones when they cant. That personal touch you can offer can mean the difference in obtaining or keeping a client. As a professional answering service business, you can take messages, deliver specific messages to callers, clarify the intent of calls and even arrange meetings with customers. This booklet will illustrate how you can set up this type of homebased answering service business. Its your chance to talk and earn money doing it! Tags: \$
