I was tired of flipping back and forth through tons of books for the few bits of information that could help me; but I reasoned that if I put all those little tidbits of info together then I might actually be able to begin understanding the secrets to livestock and poultry care. The next morning I furiously began to read through all of the livestock and poultry books that I had purchased over the past three years and take down the pertinent notes. I didnt stop there either. I swallowed my pride and enlisted the help of several professional acquaintances who were known for farming and ranching. It took awhile to sort through all of the information I had gathered and compile the notes I received from the experts I consulted, but when I was finished I sat back and was completely stunned. Right here in front of me was the information that I had been seeking all along! From the notes I had taken from several articles on the subject of livestock and poultry care, as well as my own interviews, I had comprised a comprehensive compendium on the subject of livestock and poultry care. I sat back in stunned amazement! It was all there! * Horses * Sheep * Poultry * Swine * Cattle Then I decided to try an experiment and put all of my hard work to the test. Suddenly, I was excited! I absolutely could not believe the difference. Suddenly it was all so clear!
