There are many today who claim The Master Key System is the greatest book ever written. It is simply one of the finest studies in personal power, metaphysics, and prosperity consciousness that exists. Covering everything from how to create abundance and wealth to how to get healthy, the author Charles F. Haanel leaves no stone unturned. With precision, he expounds on each topic with logic and rigor that not only leaves you feeling good, but also thinking good. The book was banned by the Church in 1933 and has been hidden away for decades. Rumor has it that while he was attending Harvard University, Bill Gates discovered and read The Master Key System. It was this book that inspired the future founder of Microsoft to drop out of the University and pursue his dream of "a computer on every desktop." You know the rest of that story... It is Silicon Valley's secret that almost every entrepreneur who made a fortune in recent years did so by studying the words Mr. Haanel penned around 100 years ago! Almost every millionaire and billionaire in the Valley has read The Master Key System by Charles F. Haanel.
