The .diz files are regular text files, you can open in your favorite text editor. The extension .diz is used to enable you to put the whole product AS-IS in a blog tool. This way you do not need to fear, that these lists/descriptions (=not-seo-content) get published on your site. The blogging tool should only process .txt-files. Therefore .txt is used exclusively for publishable seo content, but not for internal information. It is just used to make your life easier. Get 25 seo PLR articles, #33 now! Tags: seo cash
