

Tea Bag Folding & Decoupage For Card Making - Tiffany Bumper Set 1

[DOWNLOAD HERE](#)

This bumper set of tea bag folding tiles and kaleidoscope decoupage consists of 13 different designs based on Tiffany glassware - each one has a page to itself in this pdf file, with 15 tiles at 1.5 inches square and 4 at 3 inches square. There are two strips on each page also. Don't forget, this is good value as you can print the tiles out as many times as you want to. As well as that there is a final page with the round tiles reproduced at 6 different sizes from one inch up to 2.5 inches. These are to be used for kaleidoscope decoupage, and full instructions are at the beginning of the file. (You can also use the 3" tiles from the original page if you like for this project) These tiles are to my own design, and you are welcome to use them in both private and commercial projects, but you aren't allowed to sell the package on. Thanks. There are no backgrounds in this package (as it is a large download already) and no teabag folding instructions, which are available separately or as a package. See my other listings in this section! Searches: tea bag folding
