Heres The Secret To Growing Your Opt-In List Fast -- And Filled With Laser Targeted Prospects! When all the pros agree on something, its usually a good idea to investigate and see if its something you should be implementing... especially if it mean more profits for your online business! Dear Friend, How many times have you heard, The money is in the list! -- at least once or twice? The problem is that building a list takes time, and building a targeted list takes even more time! But a technique was developed a while back that some top marketers have been using to filter out the tire kickers and build a targeted list -- all at the same time. Jonathan Mizel calls it a Name Squeeze(tm) page -- Alex Mandossian calls it a shy yes page. In essence its a forced opt-in page. You require a prospect to give you their name and email address before giving them more information. Yes, before they even get to see the sales copy! Common Sense Out The Window! Yes, common sense says that if you require someone to give their contact information youll make fewer sales. In fact, if you listen to certain people on the marketing forums youd think *nobody* gives their info in order to read a sales letter. But they're absolutely wrong. 100 wrong, no matter how much they bluster and shout. Heres what actually happens... 1. People come to your opt-in page and see what youre offering -- more information, free ebook, special report, etc. 2. Tire kickers go away because they dont want to give up their contact info. But people who really are interested in the subject know its a good trade. 3. Fewer people end up reading your sales letter, but the ones who do are prequalified and so your conversion rate actually increases. The net result is that your number of sales stays about the same or is slightly higher -- and your list grows *very* fast! And you know the people on that list are really interested in the subject matter. Heres Where Sonic Opt-In Comes In: Sonic Opt-In is a piece of software that lets you fill in some blank fields and in just four steps youll generate a complete forced opt-in page. But thats not all... ...Sonic Opt-In also does something really cool. Something that will increase your conversions as well as make your list grow faster. Personalizing a sales letter is a proven way to increase your sales. And since youre already obtaining the prospects name, why not use it in your sales letter? Here are some of the main features of Sonic Opt-In: * Steps 1 through 4 create your opt-in page, then only 2 steps to get it up and running on your site! * Audio can be included in your opt-in page

-- a special control is included. You can also choose whether the audio is autostart or manual start. * Would you like a series of bullets in your copy? (These things youre reading now are bullets.) Special bullet editor allows you to include as many as you like! * The prospects name and email are required. * People who have already opted in are taken automatically to your sales page -- no getting stuck behind the opt-in page again! * Prospect can be taken to a special page targeted exactly to their interests. * Depending on the prospects answers, subscribe them to different autoresponders. Now you can create sub-niche lists with ease! * Personalize your sales page -- when you use the prospects first name in your copy it increases conversions, [fname]. (insert grin here) * Use one of the built-in HTML templates or create your own. * Works with Aweber, Get Response, 1 Shopping Cart, Email Aces, etc., most of the major autoresponder services. Just requires the ability to subscribe to a list via an email address. * Even works without an autoresponder account for people who are just interested in the personalization feature. A Quick Note Just so you know whos behind Sonic Opt-In, heres Jay Jennings. He's been marketing online for a few years now -- fulltime since May of 2004. Last year, 2005, was his first six-figure year and while he says hes not rich yet, hes still working from home in his own internet-based business -- and for most of us thats the big goal. Jays main thing is to create software products that help him do a specific job and then package those tools up for others to use, as well. So you know that if you buy one of his products its a work-horse -- its something he uses in his own business. This Is The Real Deal! You can order right now with no risk because I always stand by my products. Id rather give a refund than have an unsatisfied customer. Thats why I offer a ONE YEAR money back guarantee! 100 Satisfaction Guarantee You will love what Sonic Opt-In can do for you or Ill refund every penny of your purchase. And you have a full YEAR to decide whether its just a crush or real love! =;) There are other opt-in page generators available that do more or less the same job. I think Sonic Opt-In is better overall, and heres one of the best things... ...its only $38.50! Which I guess leaves you wondering... Why Is Sonic Opt-In So Cheap? When you run Sonic Opt-In youll see that at the bottom of the main window is a single line of text -- kind of like one of those stock tickers. It shows products Jay Jennings, the author of Sonic Opt-In, has for sale so theres the potential for him to make a back-end sale. That allows us to keep the price of Sonic Opt-In *very* low -- its just another way to market his products. Thats why the price is so cheap. Are You Ready To Build The List You Know You Need? Get Sonic Opt-In right now and you can have your first opt-in page up and running in less than 30 minutes. And itll only take you that long if you stop for dinner!
