Discover What It Really Takes To Succeed And Profit From Your Online Business And Find Out The Little Discussed Facts That People Ignore - Or Choose To Ignore - That Makes You Either An Internet Entrepreneur Or Simply, Plain Broke! The Ultimate Factors That Decide Your Internet Business Journey And Success Has LITTLE To Do With The Techniques You Use Or The Programs You Join Than You Expected! From: [Insert Your Name Here] Time: Sunday, January 01, 2006 Dear Friend, Are you in business solely for the money? Have you ordered several eBooks on making money online but you are not any richer than the authors who wrote those eBooks? Or have you joined some money-making programs but are still broke? Whatever you did, the bottom line is still this - you are not getting any richer or even successful for that matter, in spite of listening and taking advice from guru #1, #2 and #3, buying several eBooks, joining tonnes of affiliate and money making programs Why is that the case? Firstly, I am telling you that: * It has NOTHING to do with the eBooks on making money that you ordered. * It has NOTHING to do with the guru you thought you could trust. * It has NOTHING to do with the money-making program you have joined. * It has NOTHING to do with the business you are building. Instead, it has ALL to do with YOU. That is really good news, if you see it this way: you have only yourself to blame - and CORRECT, which otherwise, you do not have any control over the "guru" next door or the money making program you joined that are responsible for your misery.
