Instant Cover Creator is a piece of software that allows ebook authors to create professional looking logos for their ebooks. These 3-d logos are seen on many of the most popular guides and ebooks online today. A good ebook cover will attract potential customers and increase conversions. There are many different ways to get graphics for the cover of an ebook today, but the methods that I've found the most effective vary greatly in price. I've used 7 different ebook software packages and I have also used professional graphic designers. To have a custom made graphic design from a professional it typically starts at \$200. I've gotten bids as high as \$600 to have a square inch graphic built to help me brand my ebooks. I have also tried various software packages that were complicated to use, and cost \$85+ each. You can also make money from the ecover creator in other ways other than just selling your ebooks or using them to gain opt-ins. This software also comes with a MASTER resale license, meaning that it can be sold for any price you wish (recommended value of \$37) and you can sell the resale license to it.
