If there is any topic beaten to death online, its SEO or Search Engines Optimization, which is overblown, overrated and misunderstood more often than not anyways. The sheer volume of effort and cash put into it by Internet Marketers is unnecessary, because the entire purpose of SEO is to generate FREE traffic from search engines and other web sites. PPC is far worse, because it is less profitable. Do NOT use PPC. Dont buy SEO services from other gurus. Period. Think. It cannot be free if youre spending 50 or more of your time and ANY of your money on SEO services (back links, article marketing, etc). Just as bad as jumping into the quicker PPC and spending the money This resellable guide here will walk you through an incredibly easy strategy for deploying a brand new domain, getting it indexed and on its way to page one of SERPS in Google. Anyone can do this and the only cost of the course in this ebook is this ebook itself (only \$1.06).
