Dear Marketer, You've seen those great looking graphic designs online that marketers use to create awesome looking boxes to represent their software or book. These are usually downloadable digital items that only exist in the virtual world of the internet. Perhaps you have a digital product that needs a visual representation. Why spend the money on an expensive graphic designer when you can make an electronic-box yourself.. an "eBox". **How? It's easier than you think with the help of our PhotoShop Action Script. You may be asking yourself, "What's a PhotoShop Action Script?" Simply put, it's a series of pre-set commands that tells PhotoShop how automatically to perform a particular project. These script commands save huge amounts of time, especially if you are not a PhotoShop wizard, or if you are doing multiple eBox designs. This allows you to crank out design after design without having to do the time consuming technical tasks of creating the 3D eBox. Instead, you can focus all your energies on your graphic design, such as the look of background and text. **So why is this so handy? Like a robot, the action script automates many of the complicated design tasks and allows you to complete a project in minutes rather than hours. **Ready Made Templates** You may have assumed that creating a great looking eBox is something only a PhotoShop expert can do. In fact, most people are completely unaware of how easy it is. Your purchase includes ready made templates that you can edit, add text and graphics. Sure graphic design takes some creativity... but once you have a starting point like a ready made graphic template... well, the work gets much easier and it saves you lots of time. Nearly every Graphic Artist works with templates just like the ones you see below. Then they edit it with the text, colors and images of their choice and charge customers huge money for the simple edits. Save yourself the cash and edit these templates yourself in just minutes. Just take a look at the Template Package included with this awesome Photoshop eBox Cover Action Script. PSD eBox Covers simply have the best and most professional look. **Great Looking Graphics** All you need is moderate graphic skills and Adobe Photoshop version 6.0 or higher already installed on your computer. Once you have our Photoshop Action loaded into PhotoShop, you can edit the basic template. Change the colors, images and add the titles of your product or services. In minutes, you have a beautiful eBox image ready for your website.

This is the perfect tool if you sell software or ebooks on sites such as eBay. ****Purchase the PSD eBook Cover Creator**** Regularly \$27.00 ON SALE FOR ONLY \$14.95 Get it now with INSTANT DOWNLOAD! ****BONUS**** ****Unrestricted Resale Rights Included**** Make your money back immediately by reselling this product to others!
