"New Action Plan Lets You Stop Working Too Hard And Finally Start Getting Results From Your Web Site..." Would You Like To: Get More People To Your Web Site? Get More Sales? Stop Wasting Time On marketing That Doesn't Work? Work Smart Instead Of Work Hard? Hi, my name is (Your name will go here) and I've got some groundbreaking news about selling anything on line. If you've ever tried to run a web business, you know how hard it *usually* is to get visitors to your site...and make sales! Well I've got great news, that's all changed since I started using Black Belt Web Marketing, and you're not going to believe how quickly you can start pulling in floods of targeted and qualified visitors to your site...once you put Black Belt Web Marketing to work for you! It seems hard to believe that within only a week or two, you could possess the knowledge, resources, and have a comprehensive plan for dramatically improving traffic to a Web site, any Web site. And more importantly, you'll have an action plan for getting it done. Action! It's what makes Black Belt Web Marketing so unique. You see, Black Belt Web Marketing isn't some stale, static textbook where you have to filter out bits of information from long-winded, rambling. Instead, Black Belt Web Marketing is an interactive tool that assists you in immediately applying what is being learned. You get actual action steps to proven methods for increasing traffic...not a bunch of rambling "web philosophy". You will learn how to generate web traffic from numerous sources. By the time you have fully implemented your Black Belt Web Marketing Traffic Plan your site will be receiving visitors from dozens of places all over the Net! And once you take the action steps, you'll be a "Web Marketing Specialist"...someone who can turn a dusty and ghost town of a web site into a popular hot-bed of internet activity! Are you any of these people? ...if you are, then Black Belt Web Marketing is definitely for you! Web marketers and promoters who need to prepare a web plan for their employer or client Web site owners who want more from their web site Entrepreneurs who want to have a successful internet business Consultants who want to help their clients turn the corner on internet results Developers whose ability to create a web site exceeds their ability to promote one Retailers who are looking for more customers for their virtual store Web project members who want to make a stronger contribution Trainers who are looking for the next hot training subject Job seekers who want to acquire a much-needed skill

and beef up their resumes Telecommuters who want to begin a lucrative internet career from their home
Hobbyists who aren't happy with just a Web site but want visitors too. Regardless of your current
situation, being able to make a site more successful is a skill that is in demand today and will be for as
long as the Internet exists. Keep in mind that there are millions of web sites. Thousands of new ones
spring up each day. Of these, probably less than 5 of them are actually successful at attracting large
numbers of visitors. The vast majority languish in obscurity, unfulfilling their promise or their potential. It's
tough to succeed on the Internet, especially if you don't know the techniques for getting your site noticed!
