I'm going to take you by the hand and prove to you that this system is not only different but that it actually works. Obviously you realize that you need to be able to take the traffic that comes to your site and turn it into subscribers, sales and lifetime profits. But the truth is... Converting Visitors To Cash Can Be Extremely Difficult If Not Impossible... I'm sure that you've seen loads of courses out there promising to teach you the next best thing to convert your website visitors into subscribers and eventually paying customers... But have any of them actually paid off and delivered what they promised to teach you? Most of these courses that supposedly teach you how to turn your website visitors into customers are copywriting courses. There are two huge hold ups when it comes to learning conversion from a copywriting course... 1) Most copywriting courses are thousands of pages long or contain 10 or more hours of video or audio that may take months for you to get through. 2) The only real way to become a good copywriter is to learn the basics and then write day in and day out to perfect the craft. Do either of those two things sound like something that you are going to want to do? I

know that you dont have the desire or the time to spend fighting with your website to try and get it to make money so Im going to show you... The Top Secret Squeeze Page Discovery! Have you ever heard of a Squeeze Page? Well, Ill break it down for you so its really easy for you to understand. A Squeeze Page is much like a lead generation page but its much more tuned in to getting contact information from your website visitors. These innovative pages are extremely effective at grabbing the name and e-mail address of the visitors to your website and the great part is you dont need to be a copywriting genius! A Squeeze page is extremely easy to create because it isnt meant to be a complicated, full-featured website...its meant to do one thing and one thing only... Get the name and e-mail address of your visitors so you can e-mail them as much as you want in the future allowing you to offer products and services for a profit. One of the great benefits of using Squeeze Pages is... You Dont Need To Have A Lot Of Money Or Expensive Software To Create and Profit From A Squeeze Page! Up until now, its always cost an arm and a leg to do anything regarding outsourcing design to your webpages. Youve needed not only an HTML editor but you also needed a graphics program and loads of other tools and software to get your site pumped up for maximum sales. Thats where youll notice a huge difference with Squeeze pages... You dont need all of this expensive software and you dont need to go out and buy all of the latest and greatest website tools to make a Squeeze page effective. Youll also notice that you can actually make more money without a big, fancy sales letter by using these little Squeeze pages that work like crazy. NOTICE: Yes, this goes against everything that most of the so called online marketing gurus have told you in the past but its absolutely true and if they were using this trick themselves, theyd realize it as well. A few are using Squeeze Pages and have been for years and the end result of that is a huge opt in list that makes them money hand over fist every month! What If I Am New To Internet Marketing And Dont Know Anything About HTML Or Designing Web Pages At All? This is probably something that youve been worrying about. Im here to tell you that you dont need to know a lick of HTML to use Squeeze Pages to your financial advantage. The great thing about Squeeze Pages is they are very simplistic. You dont need to know HTML at all or any complicated software for that matter- Just open one of the templates we provide in a WYSIWYG editor and you will be good to go.. You may be wondering exactly how a Squeeze Page works and how it could possibly make you more money than a full blown sales letter, let me explain... You see, people are getting accustomed to online sales letters and when they realize that they are on a page with a long sales message, many leave. This is where a Squeeze Page comes in and really helps you... Before a visitor ever sees your sales letter, they see your Squeeze Page and ONLY after they give you their contact information do they see your sales letter. This makes sure that even if they dont stick around to read the letter you can follow-up with them via e-mail and introduce them to your product or service a little bit at a time and link back to your sales letter. This gives you potentially hundreds of chances to make the sale with them. Im sure that you are now starting to see the power and potential profit that you can grab using Squeeze Pages.
