The extension .diz is used that you can put the whole product as-is in a blog tool. This way you do not need to worry, that these lists/descriptions (a.k.a. not-golf-content) get published on your site. The blogging tool should only process .txt-files. Therefore .txt is used only for publishable golf content, but not for internal information. It is just used to make your life easier. P.P.S. Visit salvador.tradebitfor more quality products.
