Discover how a real life eBay PowerSeller who actually trades on eBay legally drives 1000s of visitors to his websites using online auctions and the viral power of eBay. - John Thornhill - eBay member "planetsms" Before we get started I am going to point one thing out. Have you noticed I have already revealed my eBay id? How often do you see that? I would also like to point out this eBook is written by me and I have not hired some ghost-writer to write this eBook on my behalf. So you are getting proven methods from someone who actually makes a living online using eBay. Not some faceless marketer who doesn't even have an eBay account. Now we have that out of the way lets get started... From The Home Office of John Thornhill eBay PowerSeller, Internet Marketer And Best Selling eBook Author. I have a confession to make. I know nothing about SEO, unique content, keywords, meta tags, backward linking, link exchanging, page ranking, sitemaps or anything else related to search engines. In fact Google could close tomorrow and I wouldn't care less. Why? because I do just fine without them: Check out one of my traffic reports for January 2007. Not bad for someone who can't optimise a website. You may not know this but there are over 30 different ways of driving traffic to your websites using eBay and information products. And it is all 100 compliant with eBay's terms. If you think about that it makes perfect sense, with the cost of Pay Per Click advertising rising all the time and the competition becoming more fierce everyday you can quite easily invest your hard earned cash into eBay and turn your auction visitors into lifetime customers. And this eBook will show you how. You are about to discover *proven* methods of driving traffic to your websites, squeeze pages and affiliate related offers. These are methods I have been using myself since 2004 and continue to use today. Most of these methods are still relatively unknown and you can start implementing these methods into your business within minutes. Buy this eBook and you will learn methods such as: Over 30 ways to drive auction traffic to your websites. How you can use the tools eBay supplies to LEGALLY build your list. How to LEGALLY put your web address into your auctions. Why you should be selling info products and the tools you should be using. How to turn your buyers into sellers that promote you and ultimately make you money. How to turn auction visitors into subscribers. So how much would you expect to pay for this sort of information from a genuine

powerseller? \$97.00 - 67.00 - \$47.00 - \$27.00 Well you may be shocked to know I am only charging \$7 for this eBook, I was actually going to charge at least \$27 but changed my mind, for 3 reasons. I want as many people to read this eBook as possible and when you read it you will understand why. And \$7 puts this eBook within reach of the vast majority of people. Anyone who's not serious enough about their marketing efforts in 2007 to invest \$7 into this eBook isn't going to take the time to use the methods laid out inside anyway. If this is a subject that interests you the price should not matter. Anyone who is serious enough to put down the price of a fast food dinner and buy this eBook has the opportunity to sell the eBook to others and get paid the FULL PRICE of every copy they sell immediately. More details on how to do that are in the eBook. "No need to spend hundreds or even thousands of dollars on some home study course ghost-written by someone who doesn't even have an eBay account" If you are serious about your online business you will buy this eBook. If not then I wish you well, just think carefully next time that 'eBay guru' tries to sell you their next big thing. Or better still ask them their eBay id for proof of their methods. Then watch them run a mile.
