

Blackhat Genius. Learn How To Make \$500 A Day

I am selling my method Blackhat Genius. This is a great money making method. It is known by some. And not known by others. I will say this now. This is not 100 noob friendly. Reviews will prove this. It is about 30 noobfriendly. Please do not complain if you do understand some of the things as it has been mentioned. However most of it is copy paste so you don't have to worry too much. Here is just a small taste of what you'll learn in the Black Hat Genius: How to set up your business so that you won't get caught (quite possibly the most important thing of all!) Cookie Stuffing (increase your conversion rate with these 5 different ways to stuff cookies) Automated page building (Create literally thousands of pages at the click of a button with some of these tried and true blackhat techniques) Link Spamming (literally dominate your competitors on Yahoo, Live, Dogpile, Lycos, Altavista, and every single one of the other second-rate search engines with automated tools) Link Injection (a real simple technique to get a quick 200 backlinks from a bunch of .edu and .gov domains) Google Bowling (take your competition down a notch with negative SEO...I'll show you two ways) Traffic Spoofing (make it appear as though your mediocre little site is generating traffic like the next Myspace) A simple greyhat technique that will make you hundreds of dollars at a time with very little work. Two more top-secret black hat techniques which are so downright dastardly that I'm not going to reveal in this ad. As you can see. This does involve cookie stuffing. Therefore you will need an account on an affiliate network. Investments: You can either choose to purchase products that are mentioned in the guide and stay greyhat/blackhat or get them for free through pirating and go very blackhat. Other than that there are some other investments such as domain name and hosting. That is why the price of this Ebook is relatively low. Automation: This method can become automated once it is fully set up. Less than a week is needed to get it all going. You can earn a few hundred a day maintaining the method once a week There's no point in me posting of revenue proof as I am a new member and have no rep. Therefore It probably won't go far as screen shots can be easily faked. Why I am selling: I have been using this method for a while. I have made quite a bit of money. Paid of my student loan and this has added quite a bit of cash to pay for my expenses for a while. I am now looking into Whitehat running websites. Because I enjoy running forums and such and would like to

devote all my time to that. I am also working on a huge site targeted at my country and need quite a lot of time to put on that. So I figured I would share this method at a low price so that many people can use it for themselves and benefit. This method cannot get saturated. Unless millions of people start doing it. Which would lead to the death of the internet I think. Tags: \$
