PLUS - A Special Bonus For You: If You Order Today You Also Get Full Resale Rights To This Product And Website So You Can Sell It Yourself And Keep Every Single Dollar You Make! Hi, I'm Louis Allport, People love to buy software. And, if you create your own, you can easily start selling it to create a new income stream. However, the usual way to create software is a slow, very expensive and extremely technical process. But - I discovered a much easier and quicker way to create software that can work for you even if you're not the least bit technical - and - importantly you can use this tactic to get high quality software created very inexpensively. I've kept this powerful technique to myself -- until now... How To Create Great Software In 7 Days Or Less To create my own unique software, I had to hire a programmer... Now, I'd hired programmers in the past - but - there'd always been problems. Either the bids for the work had been too expensive, or the finished product just wasn't that great. However, that changed when I discovered a little known site that easily helped me find a great and very inexpensive programmer... The software he created for me in just a few days works absolutely great and has since been sold many hundreds, if not thousands of times (and it only cost me $125 to have made). Now, even if you've never dealt with programmers before, and don't consider yourself the least bit technical, I'll show you exactly how I did it step by step, so you can too... These powerful yet very easy-to-follow software creation tactics come in the form of eight brand new videos you view directly at your computer. I've bundled these powerful videos into a product called Instant Software Products: Tags: plr, mrr, plr ebooks, master resale rights, private label rights, resale rights, internet, money, marketing, online money, online business, how to, make money online, resell files, cash, make money selling, marketing, sell software, software products, reseller software
