Product Creation Innovation..... If you've ever wanted to get a little sneaky peak at how someone else's online business works for once, even if it's to see if you're doing things in the right way, now's your chance. Here's what I did last week and what this means for you. Watch closely though, blink and you'll miss the point. Bear in mind at least half of my time is spent on the more creative side of online business, who knows why, I just like that bit the best. So here I am at 2pm browsing around other marketers sites to check out what's hot and what's not (as you do) and bam, out of the blue a brand new product idea hits me. Here's the kicker.. Ok fast forward 60 minutes. From the blank piece of paper sitting in front of me, and that one single idea I had an hour ago, I've mapped out and planned four separate products ranging from free through to \$900 price tags that I know for sure will sell, I'm writing two of them at the same time, recording another and my programmer has been briefed about the fourth ready to get building. There's more though... I do this at least twice a week, out of the blue. Just think, what could you do with four new product ideas twice a week that only take you an hour to conceive and start building? I'll assume if we're on the same wavelength here that you'd see a big fountain of cash flowing right into you lap. This isn't something that came naturally. This isn't something that I was born with. This is a method that I've learned and honed over nearly seven years of product creation in the online world, whether those products are for myself, or being created for someone else, it's a great feeling to be able to pull this off. I'll show you exactly how I've been leaving my competitors in the dust with this method, and hey, best of all from my experiments on other people (ethical ones, I promise) they can learn and start using this method in 40 minutes flat. This Product Comes With Full Master Resale Rights.
