Let me answer some commonly asked questions posed to me by people just like you who later decided to invest in the Instant Video Marketing Secrets program: Q. Do I need a video camera? A. Hell yeah! Most of these video cameras are very affordable these days. You can get every marketers favorite Flip Video. For less than \$XX, you can capture very high quality video and audio. Most digital cameras and web cams today also gives you the ability to shoot video. And even if you dont have any of these, you can easily borrow one from your friend, relative, or neighbor. Theres no excuse why you shouldnt be using these video marketing strategies when the technology is cheaply available. For all the benefits youre getting, its a very good investment. Q. Do I have to spend more money on software? A. No. Most of the software you need comes together with your camera. You can also use Windows Movie Maker on any PC to edit video footages. Plus, these are tones of free, easy to use video editing software available for download. In fact, there are many free tutorials on the internet that teaches you to use your software. And if that isnt enough, go on any video site like Youtube, type in the search bar How To Edit Videos, and youll get several step-by-step instructional videos to guide you through the process. Im not comfortable in front of a camera, can I still use Instant Video Marketing Secrets? A. Of course, you can use screen capture software to make PowerPoint presentations on your computer. And if talking in front of the camera freaks you out, imagine talking to a close friend when you record. It takes a little practice but its much easier than you think. Even a 5-year-old can get good in front of a camera within 30 minutes. Thats the easiest, fastest way to drive traffic than I know possible. Q. Why should I invest in Instant Video Marketing Secrets? A. I have invested a lot of money in the past to educate myself about video marketing. Ive seen them all, and used them all. While most courses teaches you how to use videos to drive traffic, improve SEO rankings, and improve conversions, none of them actually address the problem of getting your videos seen by enough viewers to start a chain reaction to spread your videos across the web. Nothing happens until enough people watch your videos! Only then do you get traffic, high search engine rankings, and more sales from better conversions. My course is the missing puzzle you need.
