Dear Professional Marketer, The web site MySpacehas received a tremendous amount of attention the last couple of years. But what is this highly popular site REALLY all about? The foundational purpose of this increasingly valuable site is communication. MySpaceprovides a means for you to create your own little corner of the Internet and devote it to your interests. MySpace boasts well over 100 million members, which is significantly larger than any of its competitors! As If That Isnt Enough... - MySpace also gives you more freedom to search profiles than most of its competitors, - They have dozens of different forums and groups that are related to specific niches. - This allows you to find the exact people you need to invite as friends in order to sell your given product or service. - They have superior communication mechanisms - large-scale bulletins and individual private messages allow you to choose the right medium that you need in order to convey whatever your message or pitch happens to be for a given product or service. - They do not restrict the amount of images, information, or videos that you upload!
