How To Buy At Auctions So You Can Make Killer Money ! "Think You Can't Bid One Dollar And Win? You Need To Read This Report Today!" Over View Of government Auctions? Most people are completely unaware of the bargains that can be found in the most unlikely of places: the government! We're used to reading about the Pentagon paying \$59.00 for a wrench, about the national debt rising higher and higher, so it's excusable to not think of government and "sales" in the same sentence. Yet nearly every level of government from city and on up through county, state and federal, has possession of excess property that must be disposed of. If this can be accomplished and money raised at the same time, why not? We want government to be fiscally responsible, right? Auctions Auctions Auctions! From property seized by police officers or customs officials to repossessions by the Department of Housing and Urban Development, there are thousands of items of all types available at rock-bottom prices. Whether you're merely buying for yourself or seeing this as a line of business that could make you a substantial profit, the key is to identify and locate these auctions. You name it! Houses, cars, jewelry, yachts, government farm equipment, computers, firewood-- it's there for the bidding and the buying! And, eventually-- the selling for profit! There's a lot of Auctions in this that you can get great deals at. You don't need much experience for this either. You are familiar with what many of these items cost today on the open market. If you buy it far enough below market value, you can still sell the property yourself at a discount and make a handsome profit. If you yourself have always wanted to own a luxury yacht, here's your chance. You'll never find your dream purchase at a lower price. You could even start a second-hand store or set up shop at a flea market or swap shop to peddle your merchandise after you've acquired it. Many of these places are havens for shoppers. You've simply gone them one better by obtaining the good(s) at an even lower price than they'll pay-- and they'll be pleased with their "bargain". The purpose of our report is to point you in the right direction to find out about the various auctions that are held by virtually all branches of government. The listings in this report are as up to date as possible. Contacting these places listed should give you the information you need to begin your auction attendance. There are open-bidding auctions, where you shout out the dollar value you're willing to pay following a minimum bid requirement

called by the auctioneer. There are also sealed-bid auctions where you submit the price you're willing to pay. Auctions will have you paying less then ever before. What have you got to lose? Winning the bid at a auction can be one of the most exciting things you ever do.
