So, What Are The Solutions? Look, the truth is that, we'd like to buy what we CAN see, though digital products can't be touched or felt unlike tangible products. Now, let's check out what options you have in creating your own professional eCover: Hire a Graphic Designer. You can hire a graphic designer to get the job done for you... that is, if you don't mind forking out at least \$99 for having one professional eCover done for you. And that is only ONE. You might or might not have the money to afford a graphic designer. And if you need to have some adjustments made to the eCover, it might cost extra on your part to have the same graphic designer make any changes to the eCover. I don't think this what you REALLY want, right? Let's check out your next option. Get a Tool or Software that creates eCovers for you. You can create an unlimited number of eCovers with such leverage that you suspect these wicked tools are ready to put graphic designers out of their job! But the question is: can you produce PROFESSIONAL eCovers that you've been wanting so badly? Whether you like it or not, you still need to have a certain degree of graphic designing skills to utilize eCover Creating Programs. In addition, more often than not, you will just NOT like the results you get from using these programs. I know it because I've used it myself before. Which Leaves The Third And Best Option For You...
