"Find A Wholesale Supplier For Any Product You Want In Just A Few Minutes And Pay Up To 80 Below Wholesale Prices!" What ever it is that you are looking for, whether it be brand name consumer electronics, clothing, auto parts, pet supplies, bicycles etc....you are about to find out exactly where and how to get it. I have interviewed over 50 eBay power sellers from all over the world (U.S.A, Australia, Japan, Canada etc.) and got them to reveal exactly where and how they get their hands on the hot and profitable products they sell to make tens of thousands of dollars per month. I have bought exactly 26 wholesale lists (expensive!) from my competitors. 80 of the information was useless. I took the remaining 20 of useful information and threw it into MY guide. I have contacted and dealt with over 500 suppliers and can now say I am a pro at negotiating with even the most stubborn suppliers. As you can imagine, I've learned A LOT from all this research. I've done all the leg work. Then, I stuffed everything into a nice and simple, easy to read, straight to the point, no fluff, no B.S. wholesale guide. Here is just some things I learned during my research: If it is sold in stores it can be bought from a wholesale supplier. This means that what ever it is that you are looking for, you can find a wholesale supplier for it...you just have to know where to look. Successful online sellers (eBay powersellers, Yahoo sellers, website owners etc.) can find a wholesale supplier for any product in just a few minutes. They don't need to spend weeks searching through the Internet just to find a supplier, because they know exactly where to look (soon, you will too). There is more to making a deal with a supplier than knowing their website address. You need to know how to deal with the suppliers you find in order do get what you want (best prices, order quantities, drop shipping arrangements etc.) 50 off a pair of jeans is not wholesale prices! You can get those kinds of deals in department store sales (real wholesale prices are a lot lower than that) Most real suppliers will provide drop-shipping at no extra charge, while most fake online "drop-shippers" will charge you an extra fee for the service on top of their already high prices. There is a ton of people claiming to be real wholesalers but they're really middle men. These people buy their products at wholesale prices, then, they mark up the prices by 20-40. The marked up prices are still below retail, BUT well above the actual wholesale price. Hint: don't deal with these people. Sometimes the only way to make money selling

something on the internet is to buy the products you sell at prices below wholesale. This is because products sold on the Internet are sold well below retail prices (sometimes as low as wholesale). The real "secret" information is not the suppliers themselves, but how and where to find them as easy and quickly as possible (this is exactly what you will learn in a few minutes) I have also learned that most wholesale lists (I bought 26) give you no helpful advice on what to do with the information you get when you buy them. There is no advice on dealing with suppliers. No advice on starting with no money. All they give you is a bunch of links and you are on your own! It does not matter if you sell a gazzilion dollars worth of products, what matters is how much of that money you keep (profit). This is why it is so important to buy your products at the lowest prices possible (below wholesale): the less you pay for your products the more money you get to keep when you actually sell the products. But, the most important thing I have learned is exactly how and where to find a wholesale supplier for anything you want, in just a few minutes and even pay up to 80 below wholesale. And that is the most important thing you will learn in the.... "Buy ANYTHING Wholesale" guide. You've purchased this product with Master Resell Rights. You are free to sell it and keep hundred percent of the profits. Tags: plr, mrr, buy
