Do you wish there was a way to be prosperous without a lot of hard (or boring) work? Are you still struggling just to get by? Would you like to learn the key secrets to attracting unlimited prosperity? Then today is your lucky day! Today, you'll discover the secrets that wealthy people have refused to reveal to anyone. Once you learn these secrets and start using them in your life, you'll be able to create as much prosperity in your life as you want! Can you imagine how fun and exciting it will be to have multiple streams of prosperity flowing effortlessly into your life, day after day after day? With the information you'll learn here, you'll be able to accelerate your personal prosperity along any path you choose, and become as rich as you desire! Prosperity is about more than just being in the right business. We all know people who are in the same businesses as rich people, but aren't getting much for their efforts. For every successful inventor, there are thousands more trying to get their inventions noticed. For every mega-successful author, there are tens of thousands of starving writers banging out words daily and never breaking into the big time. And for every real-estate tycoon, there are thousands of would-be investors being buried by their properties. No, it's not about what business you're in that counts. Prosperity is about more than simply having the right attitude. How often have you listened to a motivational speaker say "It's your attitude that determines your altitude"? If that were the case, then all you'd have to do is to think positively (they all stress Positive Mental Attitudes, right?) and you'll attract lots of money. But you and I both know that's not the case. Prosperity is about more than being in the right place at the right time. If it were simply a matter of being in the right place at the right time, then it stands to reason that everyone would have an equal shot at making the big score. But wealthy people consistently score big, over and over again. Obviously, they know something that you don't. Would you like to know what rich people know? There are actually a number of secrets that go into true Power Prosperity. Secrets such as: The secret Beliefs about Prosperity that automatically put you in the money! How to bypass the years of negative programming your life has created. Tapping into your inner mind to

make everything you do 10 times more effective! Power Affirmations that will magnetize your mind to attract unlimited prosperity. A special technique that automatically attracts Prosperity to you. How you can build unshakable self-confidence and courage. Power Persuasion - How to get others to do whatever you ask them to do! As you can see, rich people focus on far more than simple business mechanics or positive thinking. In a very real sense, rich people know how to command invisible forces to manifest prosperity at every turn. Keep reading and soon you'll learn how to do this too. And when you do, watch out world! What do rich people know? Rich people know that certain types of businesses are more likely to succeed than others. While it's true that not everyone will succeed in any given business, some businesses are much easier to succeed in than others. Here's perhaps the biggest secret of all: To be successful, you have to be in a business you enjoy. That's why you can succeed in a business while others fail miserably! If you don't like the business you're in, you simply won't put in enough effort to make it successful. But if you're really enjoying yourself, you'll put in the time and energy to do everything that's required to grow a prosperous business. And what's better, when you're having fun building your business, you never feel like you're working. Rich people know all about leverage. What is leverage, you ask? Leverage is the ability to get tremendous results from small efforts. Why struggle doing all the little details when you can automate them and never have to deal with them again? Why do all the work yourself when you can get others to do the work for you? When you learn how to leverage your efforts, prosperity becomes easy! You've heard all about the 'nothing down' philosophy with real estate. When you can buy houses using none of your own money, you can buy as many as you want, right? And when you can buy lots of real estate, and make money on each property, you can get rich quickly! The same is true in any other business on the planet. If you can get into the business with no out-of-pocket expenses and earn money, You Can Get Rich Quickly!! Here's another powerful secret: If you want to earn \$50 per hour, then do only those things that will give you that kind of return on your time investment! In order to be prosperous, you absolutely must spend your time doing things that will pay off big! You can always hire someone else to do the 'little things' that must get done, and pay them with the money you'll make doing the 'big things'. Look at it this way, if you spend 8 hours a day doing things that will return \$400 to you, you can afford to pay someone \$100 (\$12.50 per hour) to do the other stuff. And along another line, if you can buy a tool for \$100 that will save you 3 hours of time, then it's paid for itself and earned a 50 profit! Rich people will spend money when it serves their purposes. I'll explain this in detail later. Rich people

know how to perform at higher levels Although it seems that rich people do very little, they are actually working far more efficiently than anyone else. It's like the movements of a martial arts master. Quick, to the point, and very effective. Prosperous people never make the mistake of doing something that will have to be done over again, unless there is some other benefit to doing it. Wealthy people know which tasks to do now, and which ones to put off or delegate to others. It works for me and many others Before I got started online, I worked as a photographer with my own business "Enchanted Heirlooms". By using the principles I am about to teach you, I built that business into a cash-producing machine. About a year and a half ago, I started a small website called "Keys To Power" where I teach how to tap and direct the Power of Spirit to attract an abundance of all good things. That website took off like I hoped it would, and it's been very successful. My students have also done very well for themselves, which tells me that these principles work for everyone. That little website has now grown and branched out (the power of leverage, remember). I started another website called the Power Training Academy and set it up to be a membership site offering customized instruction on the Keys To Power system. Even in it's infancy, I'm seeing where this one will grow into a huge moneymaker very quickly. And now, I'm about to reveal the secrets that have enabled me and many others to achieve substantial prosperity in record time. With this information, you'll be able to create your own magnetic money machines to rake in the cash. You don't need to run a business to attract prosperity You can use the principles I'm going to reveal to attract prosperity in any form you wish. Actually, if you never want to run any kind of business, you can still benefit from what I'm about to teach you. Before I started my first business, I used these principles to make it easy on myself in the jobs I had. Over and over again, I found myself getting paid to do very little work. If you'd like to simply go about your normal routine, but bend the forces of luck to bring some extra wealth your way from time to time, be my guest. The secrets you'll find here will give you that power. But just to let you know, running a solid, cash producing business online is the easiest way to build real wealth. Do you want to live a life of ease, never having to work a day in your life? Hey, so do !! That's why I'm working to build a number of reliable income-producing websites as quickly as I can. Once I'm done, then I'll be able to live that lifestyle for the rest of my life. And I'll show you exactly how to do the same. If I could show you how to create a cash generating machine in as little as a single day that will pay you a solid income for the rest of your life, would you give it a chance? The Keys To Power Prosperity book As you can imagine, there is too much information to share everything with you here. I've put a lot of time,

energy, and experience into preparing this information and gathering it into a very special book entitled (what else?) "Keys To Power Prosperity". I know that this information works, because I've used it myself and created massive prosperity in my own life. By now, you're probably wondering how is this book different from other books. First of all, I'm not an Internet Marketing Guru who stumbled into success without really knowing how. I had to work hard for my success, and I know what it's like to be clueless about what to do. And secondly, you don't have to run an Internet Marketing business to attract prosperity. Now I will admit that an online business is perhaps the easiest way to make money, it is by no means the only way. There are a million ways to make a million dollars, you just have to pick what works for you. I have seen people literally making a fortune doing nothing more than janitorial work! No matter what kind of business you want to be in, you can attract unending prosperity. Here are some of the things you'll learn from this exciting new book: \* - The 164 beliefs that automatically attract prosperity to you. \* - Why you're worth as much as you care to claim. \* - How to build unshakable self-confidence. \* - The mechanics of faith, and how to use it to get anything you want! \* - 5 amazingly simple ways to trick your mind into attracting wealth. \* - How to create your own subliminal recordings to program your new prosperity beliefs into your inner mind. \* - How to use creative daydreaming for prosperous results. \* - How to put the creativity into your creative daydreaming. \* - The Keys To Power Persuasion, and how to get anyone to do whatever you want! \* - How to discover your personal pathway to prosperity. There are a million ways to make a million dollars. What's your way? \* - How to get rich in a business you know nothing about! This is a HUGE secret that rich people almost never share. \* - MUCH, MUCH MORE!!!

What are you going to do now? By now, you know that you can attract all the prosperity you want using the secret principles revealed in "Keys To Power Prosperity". You're also aware that rich people know things you don't, and all you need to do is learn the key secrets and wealth will be within your grasp. I've used these secrets myself to amass a small fortune (which is growing nicely, thank you). Through my other websites, I've taught a few of these secrets to others who have gone out and created windfalls of prosperity in their own lives. (I'll check with a few of them to see if they'll share their experiences here on this site. Most of them are very private individuals who don't want a lot of publicity.) Right now, you have an opportunity to learn everything that rich people know and become rich yourself. In the past, you've probably turned down other opportunities that came up, only to discover later that you should have taken action when you had the chance. You've learned from those mistakes, and now you are ready to take

action and claim the abundant prosperity that you deserve! As you expect, now is the time for you to make a decision. Either you'll grab the bull by the horns and take command over your destiny and get this book now, or you'll drop the ball and whine about not having all the things you want in life. It's only by taking decisive action that rich people become rich. If you feel yourself backing away now, then that's a sure sign that you need this book! If you feel ready to move ahead, great! You'll easily create abundant prosperity with your actions. Easily within reach To be completely honest, I could name any price for the secrets contained within this book, and I'd be completely justified. Just to put things in perspective, here is a secret that was sold for \$25,000 way back in the 1920's. Nothing more than a prioritized to-do list. Each day, write down the things you must do the next day and list them in order of priority. Then, simply tackle each item on the list in order. That way, even if you don't get everything done, you will get the most important jobs done, and your productivity is thereby increased. By the way, it was one of Andrew Carnegie's top executives who paid the \$25,000 for this idea, and he felt it was well worth the investment. So, you see that I could charge a huge amount for the secrets in "Keys To Power Prosperity". But I'm not going to. For one, that wouldn't fit with the principles I know to work. If I did that, I wouldn't make much money. For another reason, I wouldn't help too many people. Those who need to attract prosperity are usually those without a lot of money to start with. But I do need to charge something. Knowledge gained freely is very seldom appreciated. And I would like to increase my own prosperity somewhat as well. So let's name a price that most people can afford and go with that, okay? I may decide to raise this later, but for now let's set it at \$1.99 Tags: mrr
