Welcome to the world of profitable website flipping! One of the most exciting aspects of becoming a website flipper is that you are in full control of your projects, and are able to build a solid business of your own, even with minimal experience. Not to mention, the start up costs are next to nothing. For as long as the Internet has existed, the most valuable commodity is virtual real estate. And unlike the missed opportunity to register \$10 domains that later turned into multi million dollar sales, websites never lose their appeal, value or demand. People, from all walks of life, including both new entrepreneurs to experienced veterans are always on the lookout for their next website.
