Imagine being able to crank out a brand new product every single week and building a massive web presence in the process. Imagine if you barely needed to do any work in order to make this happen. Yeah, its possible. == Product Creation Should Only Take Hours or Days At Most == Enough Content to Create A Bunch of Ebooks in a Bunch of Niches All you need to do is: \* Improve the existing content and add more as necessary \* Redo the graphics \* Slap your name on it \* Redo the salesletter Ok...maybe I oversimplified it a bit. But that is basically what you need to do to profit from all that dusty old PLR that is sitting around on your computer. == Mistakes That Will Keep You Poor If you venture into the world of PLR without any training, then good luck. Youll waste countless hours of your time and youll have crappy products that nobody will want to buy to show for all your effort. Some people make their living just by buying and selling PLR products. Theyve got this down to a science and if you dont know these secrets, then you wont make money with PLR. Have you ever bought a PLR product which promised riches on the salesletter but then found the product to be garbage about buying it? The crappier a PLR product is, the lengthier a process itll be to revamp it. And thats not all its not just about the content. There are common mistakes that inexperienced PLR marketers make that will cost you a lot of money. Make these mistakes and your PLR products will not be any different than the cr8p that is already on your hard drive. In fact it could end up worse, even when you've spent hours trying to get it together! This is an important section of the ebook where I basically tell you what not to do when trying to make money with PLR. == The 7 Deadly Sins Of PLR When you think of PLR, you think "articles" or "dusty old ebooks" right? Well there are many ways to profit from and use PLR. All of these ways take very little effort too! Thats the great thing about PLR youve already got a framework to work with. All you need to do is make it better. Imagine if you could take a bunch of ebooks which were lying around your computer, fix em up a bit, and then come out the other side with a unique and high quality product that you could easily sell for \$97 for example! And its not just about selling stuff either...you can basically use PLR wherever you need content. Youll learn about the

different ways to use PLR and more inside. == Youll be able to bully your competition and dominate any niche you want using secrets like: 1. The simple technique to turn even the worst PLR product into a brand new and high quality product 2.
