In this video, you will learn how to make sure your landing page or the content you put in front of your customers

is Mobile friendly. Video #5: QR Code Tactics: Engage Customers In this video you will learn several ways to use QR Codes. First, to build curiosity and presell your products or services. If you can engage your customers so that they become curious about how your products or services can benefit them, and they interact with your company, that is one step closer to fulfilling their wants and needs, ultimately closing a sale. For example, lets say you are a realtor and you would like to put a QR Code on your sign for a specific house. By doing so, you give the home buyer, who may not have a realtor to open the door, the ability to see what is on the inside of the house. This is one of many examples, so you can easily see how this can positively impact your product or service. Video #7: QR Code Tactics: List Building Did you know that you can build your list by using QR Codes? As you know, QR Codes bridge the gap between offline and online worlds, and thus make it easy for you to build your list of customers. If you dont have access to a list of customers for your business then you are losing a lot of money by not promoting to your backend, loyal customers. In this video, you will learn how to build your online list of clients using QR Codes.
