Finally! You Can Get Tons of Ideas for Writing New Articles... In Seconds Article Ideas is a Push Button Solution!. Article Ideas Tool - Cut Down the Research Time Ive realized that my research for an average article looks like this: 1)Type in your keyword phrase to Google. 2)Visit many websites of the result. 3)Find useful pieces of text 4)and copy them to Notepad. When the Notepad gets full, I step back. I read the notes and ideas for an introduction and every other part of the article just flow. So Why Not Automate That? This tool not only visits the first top 100 Google results for you, it doesnt waste your time with pieces of text with strictly commercial intent. It gives you information, the meat. You just read that and write your article in your own words, or even copy pieces of text (copying one sentence from one site is not considered content stealing). This is a Microsoft Windows program only. The file has been checked and found 100 clean with the following anti-virus software: Kaspersky Anti-Virus, A-Squared, AntiVir, ArcaVir, Avast, AVG Antivirus, BitDefender, ClamAV, CPsecure, Dr.Web, F-Prot Antivirus, F-Secure Anti-Virus, Ikarus, , NOD32, Norman Virus Control, Panda Antivirus, Quick Heal, Sophos Antivirus, VirusBuster and VBA32.
