Beau Scott is a hero at thirty whose dreams of service and glory are shattered when he's forced to leave the Army. Recruited by the CIA, he's assigned the dreary task of collecting economic intelligence in Europe. Until he's asked to locate the hidden bank accounts of Savama, the Iranian Intelligence Service, to prevent them from buying plutonium from the Russian Mafia. H2 takes readers inside the technology of tomorrow's fuel, hydrogen, and makes them voyeurs inside the boardrooms of Europe, the ballrooms of Germany, and the bordellos of Frankfurt.
