Product Lighting Affiliates: Are you still at the mercy of the next Guru waiting to offer you something to sell? You can stop this insane cycle and ... "Create 7 New Products of Your Own in 7 Days! Discover the Secrets of Lightning-Fast Product Creation and Never Again Run Out of New Products to Sell!" Are you still at their mercy? Fellow affiliate Have you ever wanted to get a little sneaky peak at how someone else's online business works for once, even if it's to see if you're doing things in the right way? Well, I admit it. I have, now's your chance. I've started writing articles to help drive business. We all know it's a great way to do it. It's viral and the visitors are free. No PPC, no advertising costs. Just clicks to our sites. It all sounds so simple - until we sit down and stare at a blank screen for awhile. Then reality sets in! We need help! Well, I've been surfing, studying and absorbing all the info I can. In the process I have learned a thing or two. One of the great insights I have discovered is that you don't have to re-invent the wheel. All the hints, guides and techniques are already out there. You just need to follow them! As a "Thank You" for visiting my site, I want to share with you the secrets of one of the really good product copywriters I was fortunate enough to uncover. His name will remain anonymous as will the names of some of his students. You can discover all of his tips and techniques in my 96 page book "Product Lightning - 7 New Products in 7 Days!". Here's his story: "Here's what I did last week and what this means for you. Watch closely though, blink and you'll miss the point. Bear in mind at least half of my time is spent on the more creative side of online business, who knows why, I just like that bit the best. So here I am at 2pm browsing around other marketers sites to check out what's hot and what's not (as you do) and bam, out of the blue a brand new product idea hits me. Here's the kicker.. Ok fast forward 60 minutes. From the blank piece of paper sitting in front of me, and that one single idea I had an hour ago, I've mapped out and planned four separate products ranging from free through to \$900 price tags that I know for sure will sell, I'm writing two of them at the same time, recording another and my programmer has been briefed about the fourth ready to get building. There's more though... I do this at least twice a week, out of the blue. Just think, what could you do with four new product ideas twice a week that only take you an hour to conceive and start building? I'll assume if we're on the same wavelength here that you'd see a big fountain of cash

flowing right into your lap. This isn't something that came naturally. This isn't something that I was born with. This is a method that I've learned and honed over nearly seven years of product creation in the online world, whether those products are for myself, or being created for someone else, it's a great feeling to be able to pull this off. I'll show you exactly how I've been leaving my competitors in the dust with this method, and hey, best of all from my experiments on other people (ethical ones, I promise) they can learn and start using this method in 40 minutes flat. My bet is that you can too. Let's see if you have what it takes." Do you? Have what it takes? Grab your free copy of "Product Lightning - 7 Products in 7 Days!" and write yourself to success!
