Too Many Courses Presume You Already Know (FTP) File Transfer And Website Maintenance Basics. This Is Your Missing Link To Creating and Maintaining Your Website. Video #1 :: Warming Up to FTP If you're reading this, you probably want to get your website up and running now. Or you want to transfer some files right now! Hold on there just a minute. In this video you will learn the basics of FTP just to get your feet warm. We'll talk about FTP basics, what it is, and how it works. Video #2 :: What You Need To Have Beforehand While some of you already have bought a domain name and web hosting, many of you have no clue where to begin. So in this video, you will learn what you need to have before you get started. The goal of this video product is to cover every little hole or questions, so you aren't left in the dark. Besides the domain and web hosting, which will cost about \$15-20 to get started, we'll stick with free FTP tools, so it won't break your wallet. Video #3 :: Getting Your Website Setup For File Transfer Once you've acquired the domain, web hosting, and ftp software...now what? At this point in the process, it's time to connect your domain to your web hosting company. What? No worries, you will be given step by step instructions to accomplish this. All you have to do is follow the mouse and do exactly as I show you; as you look over my shoulder. Once you've passed this part, everything else should be a breeze. Video #4 :: Accessing Your Login Information Obviously before you can connect to your FTP account thru the Filezilla software, you will need to get a hold of your login information. Once you have this, you will be set. In this video you will learn what you need to get started FTP login wise so you will be ready to go without the wonders of what you'll need next. Don't worry, this whole process does not require you to be technical savvy. In fact, you're almost done when you hit this video. Video #5 :: Saving and Organizing Your Account Information in Filezilla Once you have your login information, you'll want to be sure to organize your account information within Filezilla. I have made many mistakes over the years, and this is one of them. Without the proper organization, you will become frustrated in the long run. Do it right this first time, and you'll make your life so much easier by saving time

in the future. Video #6 :: Connecting to your FTP Account in Filezilla Youre almost connected! As the title states, you will learn how to connect to your FTP account so you can start upload the necessary website files to your website. Youll notice that as the videos progress, it becomes easier and easier as you finish each step. Youre almost there. Well also cover some problems you may face while doing so and how to overcome them. Video #7 :: Where Do You Upload To? By now youre inside your FTP account or in simpler terms, youre inside your website. When you log in, you will notice a number of folders. The big question you may have is, which folder? Yes, there is a specific main folder you need to upload to, but youll learn what to watch out for so that you can setup your website correctly. Video #8 :: Uploading to the Filezilla Manager Now that you understand which is the main folder and where to upload to, its time to upload your files. Youre almost there! Arent your excited? And the best part of it all, this part is a breeze. But besides just the task of uploading files, you will learn how to use the Filezilla manager and how to use it correctly to make your life easier. Video #9 :: How to Delete, Copy, Move files, Create a Folder, and more. Just as the title states, youll learn the basic things you can do while you are within the FTP program. Youll learn vital tasks such as how to delete a file or folder? How to copy and move files and folders around? How to create a new folder? And much much more. Video #10 :: Live Website Rules 101 Weve added these last two videos to ensure that understand how to get your site up and running. Now that you understand the basics of how to upload files and transfer them around your website, lets talk about basic website rules and cover questions and problems you may encounter while trying to make your site live. Such as I cant get my site to appear on the internet when I go to yourdomain.com! and more. Video #11 :: Transfer Files Without FTP Software Lets say that you are traveling and you dont have access to your computer at home that has FTP software. Or lets say you have the files on hand, but you dont have access to that computer. Either way, there are ways to access your website without using FTP software. Now keep in mind that this video course covers Filezilla FTP software, however you can use any FTP software that you choose. In fact many FTP softwares are very similar to that of Filezilla. At the same time, you will learn in this video, how to transfer files, do everything you could do without Filezilla and more thru your browser.
