

# Auslogics Boostspeed

[DOWNLOAD HERE](#)

If your computer or Internet feels slower than usual, Auslogics might have a remedy - its award winning Auslogics Boost Speed. Run the program on a weekly basis to clean up disks and the registry, fix errors, and tune up the one-size-fits-all Windows settings to your particular computer configuration. Not only will this improve Internet speed, it will reduce computer startup and shutdown time, and tweak Windows to its top performance. Auslogics BoostSpeed specifications: Download Size: 6268 KB Other System Requirements: Pentium Processor, 16 MB RAM, 10 MB HDD Auslogics BoostSpeed support Support email: sales@auslogics.com Phone: 1234567890 Auslogics BoostSpeed manufacturer Auslogics Software Pty Ltd PO Box 16441585 Crows Nest auslogics.com Tags: optimize dsl, speedy internet, pc boost, slow internet, slow computer, speed up pc
